State of Affairs	There has been neither significant changes to the state of affairs of the Fund nor any circumstances that materially affect any interests of the unitholders during the financial year under review.																																																
Rebates and Soft Commission	During the year, the management company did not receive soft commissions by virtue of transactions conducted for the Fund.																																																
Market Review	<p>Despite Malaysia bond market experienced a volatile session during second half of 2023 local fixed income market still ended the year in a positive territory, largely mirrored movement in the United States Treasuries (UST) on the narrative that the Federal Reserve's period of rate tightening may be over and setting the stage for rate cuts to occur in 2024. Over the period, the UST curve bull-steepened with yields fell by 12 - 65bps across the 1-year and 7-year tenure. In tandem with the positive performance of the UST, Malaysian Government Securities (MGS) yields fell by 3 – 12bps across the curve.</p> <p>Moving towards 2024, Malaysia bond market kicked start the first two months with a sell-off amid profit taking as MGS yields were 3bps to 15bps higher generally across the yield curve after the strong year-end rally and cautious ahead of stronger United States (US) economic data and hawkish comments from the Federal Reserve (Fed) members. Domestically, Bank Negara Malaysia (BNM) kept overnight policy rate unchanged at 3.00% on 24 January 2024 meeting, in line with market expectation accompanied by language of the Monetary Policy Committee (MPC) statement remained neutral and depicting current Overnight Policy Rate (OPR) level as supportive.</p> <p>In the month of March, the widely expected pause in BNM's OPR coupled with the lack of markets conviction amid subdued market sentiment in the US, local bond market was traded in a tight 4 - 9bps range. However, Malaysia bond market turned weaker in April following a sell-off in the UST, as sticky inflation and resilient labor market have given more reasons for the US Fed to stand pat on key rates. Thin market liquidity and rising geopolitical risk in the Middle East also dented bond market sentiment with MGS curve repriced higher by 13 - 22 bps month-on-month (MoM).</p>																																																

Market Outlook	Despite the selloff in the United States Treasury (UST) market, the local Malaysian Government Securities (MGS) market did not suffer a similar spike in yields. Bonds yields only rose marginally and were relatively supported. This has been attributed to the deep domestic liquidity holdings, particularly from GLICs and institutional investors.

Independent auditors' report to the unit holders of AmBond Select 2

Report on the audit of the financial statements

Opinion

We have audited the financial statements of AmBond Select 2 (the "Fund"), which comprise the statement of financial position as at 30 April 2024, and statement of comprehensive income, statement of changes in equity and statement of cash flows of the Fund for the financial year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 11 to 44.

In our opinion, the accompanying financial statements, give a true and fair view of the financial position of the Fund as at 30 April 2024, and of its financial performance and cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence and other ethical responsibilities

We are independent of the Fund in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information other than the financial statements and auditors' report thereon

The Manager of the Fund (the "Manager") is responsible for the other information. The other information comprises the information included in the annual report of the Fund, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

**Independent auditors' report to the unit holders of
AmBond Select 2 (cont'd.)**

Information other than the financial statements and auditors' report thereon (cont'd.)

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report the fact. We have nothing to report in this regard.

Responsibilities of the Manager and the Trustee for the financial statements

The Manager is responsible for the preparation of the financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and International Financial Reporting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

The Trustee is responsible for overseeing the Fund's financial reporting process. The Trustee is also responsible for ensuring that the Manager maintains proper accounting and other records as are necessary to enable true and fair presentation of these financial statements.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

**Independent auditors' report to the unit holders of
AmBond Select 2 (cont'd.)**

Auditors' responsibilities for the audit of the financial statements (cont'd.)

As part of an audit in accordance with the approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Independent auditors' report to the unit holders of
AmBond Select 2 (cont'd.)**

Other matters

This report is made solely to the unit holders of the Fund, as a body, in accordance with the Guidelines on Unlisted Capital Market Products under the Lodge and Launch Framework issued by Securities Commission Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 APRIL 2024

1. GENERAL INFORMATION

AmBond Select 2 (the “Fund”) was established pursuant to a Deed dated 17 August 2017 (the “Deed”), between AmFunds Management Berhad as the Manager, HSBC (Malaysia) Trustee Berhad as the Trustee and all unit holders.

The Fund aims to provide regular income by investing in fixed income instruments. As provided in the Deed, the financial period shall end on 30 April and the units in the Fund were first offered for sale on 21 November 2017.

The financial statements were authorised for issue by the Manager on 18 June 2024.

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements of the Fund have been prepared on a historical cost basis, except as otherwise stated in the accounting policies and comply with Malaysian Financial Reporting Standards (“MFRS”) as issued by the Malaysian Accounting Standards Board (“MASB”) and International Financial Reporting Standards (“IFRS”).

Standards effective during the financial year

The adoption of the following MFRS and amendments to MFRS which became effective during the financial year did not have any material financial impact to the financial statements.

Description	Effective for financial periods beginning on or after
MFRS 17 <i>Insurance Contracts</i> and Amendments to MFRS 17*	1 January 2023
Initial Application of MFRS 17 and MFRS 9 - <i>Comparative Information</i> (Amendments to MFRS 17 <i>Insurance Contracts</i>)*	1 January 2023

Amendments to MFRS 10 and MFRS 128: <i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*</i>	Deferred

* These Amendments to MFRSs are not relevant to the Fund.

3. SUMMARY OF ACCOUNTING POLICIES

3.1 Income recognition

Income is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the income can be reliably measured. Income is measured at the fair value of consideration received or receivable.

(i) Interest income

For all interest-bearing financial assets, interest income is calculated using the effective interest method. Effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. The calculation takes into account all contractual terms of the financial instrument and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the effective interest rate, but not future credit losses.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 30 APRIL 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.1 Income recognition (cont'd.)

(i) Interest income (cont'd.)

Once the recorded value of a financial asset or a group of similar financial assets has been reduced due to an impairment loss, interest income continues to be recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

(ii) Gain or loss on disposal of investments

On disposal of investments, the net realised gain or loss on disposal is measured as the difference between the net disposal proceeds and the carrying amount of the investments. The net realised gain or loss is recognised in profit or loss.

3.2 Income tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

3.3 Functional and presentation currency

Functional currency is the currency of the primary economic environment in which the Fund operates that most faithfully represents the economic effects of the underlying transactions. The functional currency of the Fund is Ringgit Malaysia ("RM") which reflects the currency in which the Fund competes for funds, issues and redeems units. The Fund has also adopted RM as its presentation currency.

3.4 Statement of cash flows

The Fund adopts the direct method in the preparation of the statement of cash flows.

Cash and cash equivalents are short-term, highly liquid investments that are readily convertible to cash with insignificant risk of changes in value.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 30 APRIL 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.5 Distribution

Distribution is at the discretion of the Manager. A distribution to the Fund's unit holders is accounted for as a deduction from retained earnings and realised income. Realised income is the income earned from interest income and net gain on disposal of investments after deducting expenses and taxation. A proposed distribution is recognised as a liability in the period in which it is approved. Distribution is either reinvested or paid in cash to the unit holders on the distribution payment date. Reinvestment of units is based on the NAV per unit on the distribution payment date, which is also the time of creation.

3.6 Unit holders' capital

The unit holders' capital of the Fund meets the definition of puttable instruments and is classified as equity instruments under MFRS 132 *Financial Instruments: Presentation* ("MFRS 132").

3.7 Financial assets – initial recognition and measurement

(i) Initial recognition

Financial assets and financial liabilities are recognised when the Fund becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognised using trade date accounting or settlement date accounting. The method used is applied consistently for all purchases and sales of financial assets that belong to the same category of financial assets.

(ii) Initial measurement

All financial assets are recognised initially at fair value, in the case of financial assets not recorded at FVTPL, transaction costs that are attributable to the acquisition of the financial assets. All financial liabilities are recognised initially at fair value and, in the case of financial liabilities not recorded at FVTPL, net of directly attributable transaction costs.

(iii) "Day 1" profit or loss

At initial measurement, if the transaction price differs from the fair value, the Fund immediately recognises the difference between the transaction price and fair value (a "Day 1" profit or loss) in profit or loss provided that fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. Level 1 input) or based on a valuation technique that uses only data from observable markets. In all other cases, the difference between the transaction price and model value is recognised in profit or loss on a systematic and rational basis that reflects the nature of the instrument over its tenure.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 30 APRIL 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.8 Financial assets – classification and subsequent measurement

The classification and subsequent measurement of debt instruments held by the Fund are determined based on their business model and cash flow characteristics.

Business model

The business model reflects how the Fund manages the financial assets in order to generate cash flows. That is, whether the Fund's objective is solely to collect the contractual cash flows from the assets, or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. the financial assets are held for trading purposes), then the financial assets are classified as part of "other" business model. Factors considered by the Fund in determining the business model for a portfolio of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, and how risks are assessed and managed.

Cash flow characteristics

Where the business model is to hold the financial assets to collect contractual cash flows, or to collect contractual cash flows and sell, the Fund assesses whether the financial assets' contractual cash flows represent solely payment of principal and interest ("SPPI"). In making this assessment, the Fund considers whether the contractual cash flows are consistent with a basic lending arrangement, i.e. interest includes only consideration for time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are SPPI.

3.9 Financial assets under MFRS 9

Classification and measurement

The classification of financial assets depends on the Fund's business model of managing the financial assets in order to generate cash flows ("business model test") and the contractual cash flow characteristics of the financial instruments ("SPPI test"). The business model test determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both and the assessment is performed on a portfolio basis. The SPPI test determines whether the contractual cash flows are solely for payments of principal and interest and the assessment is performed on a financial instrument basis.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 30 APRIL 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.9 Financial assets under MFRS 9 (cont'd.)

The Fund may classify its financial assets under the following categories:

Financial assets at amortised cost

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Financial assets include in this category are deposits with a licensed financial institution, cash at banks, amount due from Target Fund Manager, amount due from Manager, amount due from brokers, dividend/distribution receivables and other receivables.

Financial assets at FVOCI

A financial asset is measured at fair value through other comprehensive income ("FVOCI") if its business model is both to hold the asset to collect contractual cash flows and to sell the financial assets. In addition, the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the outstanding principal.

These investments are initially recorded at fair value and transaction costs are expensed in the profit or loss. Subsequent to initial recognition, these investments are remeasured at fair value. All fair value adjustments are initially recognised through OCI. Debt instruments at FVOCI are subject to impairment assessment.

Financial assets at FVTPL

Any financial assets that are not measured at amortised cost or FVOCI are measured at FVTPL. Subsequent to initial recognition, financial assets at FVTPL are measured at fair value. Changes in the fair value of those financial instruments are recorded in "Net gain or loss on financial assets at FVTPL". Interest earned element of such instrument is recorded in "Interest income".

Instruments that qualify for amortised cost or FVOCI may be irrevocably designated as FVTPL, if doing so eliminates or significantly reduces a measurement or recognition inconsistency. Equity instruments are normally measured at FVTPL, nevertheless, the Fund is allowed to irrevocably designate equity instruments that are not held for trading as FVOCI, with no subsequent reclassification of gains or losses to profit or loss.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 30 APRIL 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.10 Financial liabilities – classification and subsequent measurement

Financial liabilities issued by the Fund are classified as financial liabilities at amortised cost, where the substance of the contractual arrangement results in the Fund having an obligation either to deliver cash or another financial asset to the holders. After initial measurement, financial liabilities are subsequently measured at amortised cost using the effective interest method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate.

3.11 Derecognition of financial instruments

(i) Derecognition of financial asset

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired, or
- the Fund has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a “pass-through” arrangement; and either:
 - the Fund has transferred substantially all the risks and rewards of the asset, or
 - the Fund has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

For investments classified as FVOCI - debt instruments, the cumulative fair value change recognised in OCI is recycled to profit or loss.

(ii) Derecognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. Gains and losses are recognised in profit or loss when the liabilities are recognised, and through the amortisation process.

3.12 Financial instruments – expected credit losses (“ECL”)

The Fund assesses the ECL associated with its financial assets at amortised cost using simplified approach. Therefore, the Fund does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The ECL in respect of financial assets at amortised cost, if any, is recognised in profit or loss.

Financial assets together with the associated allowance are written off when it has exhausted all practical recovery efforts and there is no realistic prospect of future recovery. The Fund may also write-off financial assets that are still subject to enforcement activity when there is no reasonable expectation of full recovery. If a write-off is later recovered, the recovery is credited to profit or loss.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 30 APRIL 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.13 Determination of fair value

For investments in local fixed income securities, nominal value is the face value of the securities and fair value is determined based on the indicative prices from Bond Pricing Agency Malaysia Sdn. Bhd. plus accrued interest, which includes the accretion of discount and amortisation of premium. Adjusted cost of investments relates to the purchased cost plus accrued interest, adjusted for amortisation of premium and accretion of discount, if any, calculated over the period from the date of acquisition to the date of maturity of the respective securities as approved by the Manager and the Trustee. The difference between adjusted cost and fair value is treated as unrealised gain or loss and is recognised in profit or loss. Unrealised gains or losses recognised in profit or loss are not distributable in nature.

3.14 Classification of realised and unrealised gains and losses

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period's unrealised gains and losses for financial instruments which were realised (i.e. sold, redeemed or matured) during the reporting period.

Realised gains and losses on disposals of financial instruments classified at FVTPL are calculated using the weighted average method. They represent the difference between an instrument's initial carrying amount and disposal amount.

3.15 Significant accounting estimates and judgments

The preparation of the Fund's financial statements requires the Manager to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability in the future.

The Fund classifies its investments as financial assets at FVTPL as the Fund may sell its investments in short-term for profit-taking or to meet unit holders' cancellation of units.

No major judgments have been made by the Manager in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(b) Financial instruments that are carried at fair value

The Fund's financial assets and liabilities are carried at fair value.

The Fund uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable; either directly or indirectly; or

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The following table shows an analysis of financial instruments recorded at fair value by the level of the fair value hierarchy:

FOR THE FINANCIAL YEAR ENDED 30 APRIL 2024**

18. FINANCIAL INSTRUMENTS (CONT'D.)

(c) Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value

The following are classes of financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value due to their short period to maturity or short credit period:

- Interest receivables
- Amount due from/to brokers
- Deposits with licensed financial institution
- Cash at banks
- Amount due to Manager
- Amount due to Trustee
- Distribution payable

There are no financial instruments which are not carried at fair value and whose carrying amounts are not reasonable approximation of their respective fair value.

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks that include market risk, credit risk, liquidity risk, regulatory risk, management risk and non-compliance risk.

Risk management is carried out by closely monitoring, measuring and mitigating the above said risks, careful selection of investments coupled with stringent compliance to investments restrictions as stipulated by the Capital Market and Services Act 2007, Securities Commission Malaysia's Guidelines on Unlisted Capital Market Products under the Lodge and Launch Framework and the Deed as the backbone of risk management of the Fund.

(a) Market risk

The Fund's principal exposure to market risk arises primarily due to changes in the market environment, global economic and geo-political developments.

The Fund's market risk is affected primarily by the following risks:

(i) Interest rate risk

Interest rate risk will affect the value of the Fund's investments, given the interest rate movements, which are influenced by regional and local economic developments as well as political developments.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 30 APRIL 2024**

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(a) Market risk (cont'd.)

The Fund's market risk is affected primarily by the following risks: (cont'd.)

(i) Interest rate risk (cont'd.)

Domestic interest rates on deposits and placements with licensed financial institutions are determined based on prevailing market rates.

The result below summarised the interest rate sensitivity of the Fund's NAV, or theoretical value due to the parallel movement assumption of the yield curve by +100bps and -100bps respectively:

Parallel shift in yield curve by:	Sensitivity of the Fund's NAV, or theoretical value	
	2024 RM	2023 RM
+100 bps	(18,768,883)	(21,418,644)
-100 bps	19,318,788	24,246,272

(b) Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Fund by failing to discharge an obligation. The Fund can invest up to 100% of the NAV in fixed income instruments. As such the Fund would be exposed to the risk of bond issuers and financial institutions defaulting on its repayment obligations which in turn would affect the NAV of the Fund.

(i) Credit quality of financial assets

The following table analyses the Fund's portfolio of debt securities by rating category as at 30 April 2024 and 30 April 2023:

Credit rating	RM	As a % of debt securities	As a % of NAV

There is no geographical risk as the Fund invests only in investments in Malaysia.

(c) Liquidity risk

Liquidity risk is defined as the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial assets. Exposure to liquidity risk arises because of the possibility that the Fund could be required to pay its financial liabilities or redeem its units earlier than expected. The Fund maintains sufficient level of liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellations of units by unit holders. Liquid assets comprise of cash at banks, deposits with licensed financial institutions and other instruments, which are capable of being converted into cash within 5 to 7 days. The Fund's policy is to always maintain a prudent level of liquid assets so as to reduce liquidity risk.

19. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(d) Regulatory risk

Any changes in national policies and regulations may have effects on the capital market and the NAV of the Fund.

(e) Management risk

Poor management of the Fund may cause considerable losses to the Fund that in turn may affect the NAV of the Fund.

(f) Non-compliance risk

This is the risk of the Manager or the Trustee not complying with the respective internal policies, the Deed, securities laws or guidelines issued by the regulators relevant to each party, which may adversely affect the performance of the Fund.

20. CAPITAL MANAGEMENT

The primary objective of the Fund's capital management is to ensure that it maximises unit holders' value by expanding its fund size to benefit from economies of scale and achieving growth in NAV from the performance of its investments.

The Fund manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Fund may issue new or bonus units or make distribution payment.

No changes were made in the objective, policies or processes during the financial years ended 30 April 2024 and 30 April 2023.
