MANAGER'S REPORT

Dear Unitholders,

We are pleased to present you the Manager's report and the unaudited accounts of AmCumulative Growth ("Fund") for the financial period from 1 July 2024 to 31 December 2024.

Salient Information of the Fund

Name	AmCumulative Growth ("Fund")
Category/ Type	Equity / Growth
Objective	The Fund aims to provide long-term capital growth mainly through investments in securities with superior growth potential*. As such, income** will be incidental to the overall capital growth objective and a substantial portion of the income from investments will be reinvested, rather than distributed.
	Notes: Any material change to the investment objective of the Fund would require Unit Holders' approval.
	*Superior growth potential in this context refers to earnings growth higher than the market average. **The income could be in the form of units or cash.
Duration	The Fund was established on 24 July 1996 and shall exist for as long as it appears to the Manager and the Trustee that it is in the interests of the unitholders for it to continue. In some circumstances, the unitholders can resolve at a meeting to terminate the Fund.
Performance Benchmark	MSCI Far East Ex-Japan Composite Index. ("MXFEJI") (Available at www.aminvest.com)
	Notes: The benchmark does not imply that the risk profile of the Fund is the same as the risk profile of the benchmark. Investors of the Fund will assume a higher risk compared to the benchmark. Hence, the returns of the Fund may be potentially higher due to the higher risk faced by the investors.

For the financial period under review, there were some changes to the sector weights, the most notable being the decrease in telecommunication services, information technology, real estate/ REITs, utilities, whereby the weightings decreased by 3.72%, 0.79%, 0.21 and 0.01% respectively. These were offset by financials, consumer discretionary, consumer staples and Collective Investment Scheme, whereby the weightings were increased by 2.11%, 1.82%, 0.42% and 0.33% respectively.
The Fund has not undertaken any securities lending or repurchase transactions (collectively referred to as "securities financing transactions").
There were no cross trades undertaken during the financial period under review.
There is no income distribution and unit split declared for the financial period under review.
There has been neither significant changes to the state of affairs of the Fund nor any circumstances that materially affect any interests of the unitholders during the financial period under review.
During the period, the management company received soft commissions by virtue of transactions conducted for the Fund, in the form of research services, systems and services relating to performance measurement of portfolios and subscription fees for fund's benchmark indices. All of these assist in the investment decision making process which are of demonstrable benefit to unitholders of the Fund. The company has soft commission arrangement with a total of 12 brokers, who execute trades for the Fund and other funds or investments managed by the company. The soft commission received would be in the form of research services, systems and services relating to performance measurement of portfolios and/or subscription fees for fund's benchmark indices. All of these assist in the investment decision making process which are of demonstrable benefit to unitholders of portfolios and/or subscription fees for fund's benchmark indices. All of these assist in the investment decision making process which are of demonstrable benefit to unitholders of the Fund and other funds or investments managed by the company. Soft commissions received were for the benefit of the Fund and there was no churning of trades.
The regional equity markets, as proxied by the MSCI Far East Ex Japan, commenced the financial period under review at 588.52 points. The index fell 1.84% in July 2024 amid geopolitical uncertainty over impending United States (US) Presidential Elections which have affected market sentiment in general. The index rebounded in August, gaining 2.01%, led by Hong Kong and ASEAN markets. In September, the index jumped another 10.06% following China's government stimulus combo fuelled by a short squeeze, margin financing and retail excitement. The positive momentum faded in October and November, with the index declining 3.59% and 4.15%, respectively. Limited news on China's domestic stimulus, concerns over increased US-China tension following Trump's red sweep and a strong US have contributed to the decline.

	East Ex Japan index gaining 0.93% to 604.97 points, registering a return of 2.76% (-2.49% in Ringgit terms) for the financial period under review.
Market Outlook	We remain vigilant on the Asian markets as the Trump's new policies unfold. Nonetheless, the US bond yields and dollar coming off the recent peak should lead to a reprieve for the Asian equities markets in the near term. As such, our investment focus is on sectors and stocks that benefit from domestic consumption, domestic policies and China+1 policies (i.e. sectors and companies that benefit from (i) shift in demand from high-tariff Chinese exports to other exporters that are levied a lower trade tariff; and/or (ii) relocation of manufacturing facilities out of China to different markets to avoid high trade tariffs against made-in-China products). We also like the technology, financials, and consumer sectors that benefit from secular trends and robust domestic demand. Meanwhile for defensiveness during periods of uncertainty, we pick companies that generate stable income stream and grow their dividends consistently.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JULY 2024 TO 31 DECEMBER 2024

1. GENERAL INFORMATION

AmCumulative Growth (the "Fund") was established pursuant to a Deed dated 19 January 1996 as amended by Deeds supplemental thereto (the "Deeds"), between AmFunds Management Berhad as the Manager, HSBC (Malaysia) Trustee Berhad as the Trustee and all unit holders.

The Fund was set up with the objective of providing investors with long-term capital growth mainly through investment in securities with superior growth potential. As provided in the Deeds, the financial year shall end on 30 June and the units in the Fund were first offered for sale on 24 July 1996.

The financial statements were authorised for issue by the Manager on 18 February 2025.

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements of the Fund have been prepared on a historical cost basis, except as otherwise stated in the accounting policies and comply with Malaysian Financial Reporting Standards 134: *Interim Financial Reporting* ("MFRS 134") as issued by the Malaysian Accounting Standards Board ("MASB").

Standards effective during the financial period

The adoption of the following MFRS and amendments to MFRS which became effective during the financial period did not have any material financial impact to the financial statements.

3. SUMMARY OF ACCOUNTING POLICIES

3.1 Income recognition

Income is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the income can be reliably measured. Income is measured at the fair value of consideration received or receivable.

(i) Dividend/Distribution income

Dividend/Distribution income is recognised when the Fund's right to receive payment is established.

(ii) Interest income

Interest income is recognised on an accrual basis using the effective interest method.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JULY 2024 TO 31 DECEMBER 2024

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.1 Income recognition (cont'd.)

(iii) Gain or loss on disposal of investments

On disposal of investments, the net realised gain or loss on disposal is measured as the difference between the net disposal proceeds and the carrying amount of the investments. The net realised gain or loss is recognised in profit or loss.

3.2 Income tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

3.3 Functional and presentation currency

Functional currency is the currency of the primary economic environment in which the Fund operates that most faithfully represents the economic effects of the underlying transactions. The functional currency of the Fund is Ringgit Malaysia ("RM") which reflects the currency in which the Fund competes for funds, issues and redeems units. The Fund has also adopted RM as its presentation currency.

3.4 Foreign currency transactions

Transactions in currencies other than the Fund's functional currency (foreign currencies) are recorded in the functional currency using exchange rates prevailing at the transaction dates. At each reporting date, foreign currency monetary items are translated into RM at exchange rates ruling at the reporting date. All exchange gains or losses are recognised in profit or loss.

3.5 Statement of cash flows

The Fund adopts the direct method in the preparation of the statement of cash flows.

Cash and cash equivalents are short-term, highly liquid investments that are readily convertible to cash with insignificant risk of changes in value.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JULY 2024 TO 31 DECEMBER 2024

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.6 Distribution

Distribution is at the discretion of the Manager. A distribution to the Fund's unit holders is accounted for as a deduction from retained earnings and realised income. Realised income is the income earned from dividend/distribution income, interest income and net gain on disposal of investments after deducting expenses and taxation. A proposed distribution is recognised as a liability in the period in which it is approved. Distribution is either reinvested or paid in cash to the unit holders on the distribution payment date. Reinvestment of units is based on the NAV per unit on the distribution payment date, which is also the time of creation.

3.7 Unit holders' capital

The unit holders' capital of the Fund meets the definition of puttable instruments and is classified as equity instruments as it meets all criteria for such classification under MFRS 132 *Financial Instruments: Presentation* ("MFRS 132").

3.8 Financial instruments – initial recognition and measurement

(i) Initial recognition

Financial assets and financial liabilities are recognised when the Fund becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognised using trade date accounting or settlement date accounting. The method used is applied consistently for all purchases and sales of financial assets that belong to the same category of financial assets.

(ii) Initial measurement

All financial assets are recognised initially at fair value, in the case of financial assets not recorded at FVTPL, transaction costs that are attributable to the acquisition of the financial assets. All financial liabilities are recognised initially at fair value and, in the case of financial liabilities not recorded at FVTPL, net of directly attributable transaction costs.

(iii) "Day 1" profit or loss

At initial measurement, if the transaction price differs from the fair value, the Fund immediately recognises the difference between the transaction price and fair value (a "Day 1" profit or loss) in profit or loss provided that fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. Level 1 input) or based on a valuation technique that uses only data from observable markets. In all other cases, the difference between the transaction price and model value is recognised in profit or loss on a systematic and rational basis that reflects the nature of the instrument over its tenure.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JULY 2024 TO 31 DECEMBER 2024

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.9 Financial assets

Classification and measurement

The classification of financial assets depends on the Fund's business model of managing the financial assets in order to generate cash flows ("business model test") and the contractual cash flow characteristics of the financial instruments ("SPPI test"). The business model test determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both and the assessment is performed on a portfolio basis. The SPPI test determines whether the contractual cash flows are solely for payments of principal and interest and the assessment is performed on a financial instrument basis.

The Fund may classify its financial assets under the following categories:

Financial assets at amortised cost

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Financial assets include in this category are deposits with licensed financial institutions, cash at banks, amount due from Target Fund Manager, amount due from Manager, amount due from brokers/financial institutions, dividend/distribution receivables and other receivables.

Financial assets at FVOCI

A financial asset is measured at fair value through other comprehensive income ("FVOCI") if its business model is both to hold the asset to collect contractual cash flows and to sell the financial assets. In addition, the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the outstanding principal.

These investments are initially recorded at fair value and transaction costs are expensed in the profit or loss. Subsequent to initial recognition, these investments are remeasured at fair value. All fair value adjustments are initially recognised through OCI. Debt instruments at FVOCI are subject to impairment assessment.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JULY 2024 TO 31 DECEMBER 2024

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.9 Financial assets (cont'd.)

Classification and measurement (cont'd.)

The Fund may classify its financial assets under the following categories: (cont'd.)

Financial assets at FVTPL

Any financial assets that are not measured at amortised cost or FVOCI are measured at FVTPL. Subsequent to initial recognition, financial assets at FVTPL are measured at fair value. Changes in the fair value of those financial instruments are recorded in "Net gain or loss on financial assets at FVTPL". Dividend/Distribution revenue and interest earned elements of such instruments are recorded separately in "Dividend/Distribution income" and "Interest income" respectively. Exchange differences on financial assets at FVTPL are not recognised separately in profit or loss but are included in net gain or net loss on changes in fair value of financial assets at FVTPL.

Instruments that qualify for amortised cost or FVOCI may be irrevocably designated as FVTPL, if doing so eliminates or significantly reduces a measurement or recognition inconsistency. Equity instruments are normally measured at FVTPL, nevertheless, the Fund is allowed to irrevocably designate equity instruments that are not held for trading as FVOCI, with no subsequent reclassification of gains or losses to profit or loss.

The Fund subsequently measures its investments in equity investments and Collective Investment Scheme ("CIS") at FVTPL. Dividends/Distributions earned whilst holding the investments are recognised in profit or loss when the right to receive the payment has been established. Gains and losses on investments, realised and unrealised, are included in profit or loss.

3.10 Financial liabilities – classification and subsequent measurement

Financial liabilities issued by the Fund are classified as financial liabilities at amortised cost, where the substance of the contractual arrangement results in the Fund having an obligation either to deliver cash or another financial asset to the holders. After initial measurement, financial liabilities are subsequently measured at amortised cost using the effective interest method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 JULY 2024 TO 31 DECEMBER 2024

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.11 Derecognition of financial instruments

(i) Derecognition of financial asset

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired, or
- the Fund has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either:
 - the Fund has transferred substantially all the risks and rewards of the asset, or
 - the Fund has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

For investments classified as FVOCI - debt instruments, the cumulative fair value change recognised in OCI is recycled to profit or loss.

(ii) Derecognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. Gains and losses are recognised in profit or loss when the liabilities are recognised, and through the amortisation process.

(iii) Capital repayment received

Capital repayment received are cash received by the Fund as a result of capital reduction, a corporate action executed by a REIT entities in which the Fund is holding units of shares as its investments. A capital reduction is made out of an entity's contributed share capital. The shareholders will receive a return of capital and the cost of the shareholder's investments are reduced accordingly by the amount of capital returned.

3.12 Financial instruments – expected credit losses ("ECL")

The Fund assesses the ECL associated with its financial assets at amortised cost using simplified approach. Therefore, the Fund does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The ECL in respect of financial assets at amortised cost, if any, is recognised in profit or loss.

Financial assets together with the associated allowance are written off when it has exhausted all practical recovery efforts and there is no realistic prospect of future recovery. The Fund may also write-off financial assets that are still subject to enforcement activity when there is no reasonable expectation of full recovery. If a writeoff is later recovered, the recovery is credited to profit or loss.

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.13 Determination of fair value

For investments in local quoted equity securities, fair value is determined based on the closing price quoted on Bursa Malaysia Berhad. For investments in foreign listed securities, which are quoted in the respective stock exchanges, fair value will be determined based on the published market price quoted by the respective stock exchanges at the end of each business day. For investments in unquoted CIS, fair value is determined based on the closing NAV per unit of the CIS. Purchased cost is the quoted price that the Fund paid when buying its investments. The difference between the purchased cost and fair value is treated as unrealised gain or loss and is recognised in profit or loss. Unrealised gains or losses recognised in profit or loss are not distributable in nature.

3.14 Classification of realised and unrealised gains and losses

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period's unrealised gains and losses for financial instruments which were realised (i.e. sold, redeemed or matured) during the reporting period.

Realised gains and losses on disposals of financial instruments classified at FVTPL are calculated using weighted average method. They represent the difference between an instrument's initial carrying amount and disposal amount.

3.15 Significant accounting estimates and judgments

The preparation of the Fund's financial statements requires the Manager to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability in the future.

The Fund classifies its investments as financial assets at FVTPL as the Fund may sell its investments in the short-term for profit-taking or to meet unit holders' cancellation of units.

No major judgments have been made by the Manager in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period.

Income tax payable is calculated on investment income less deduction for permitted expenses as provided under Section 63B of the Income Tax Act, 1967.

Pursuant to the Finance Act 2021, income derived by a resident person from sources outside Malaysia and received in Malaysia from 1 January 2022 will no longer be exempted from tax. Foreign-sourced income ("FSI") received in Malaysia will be taxed at the prevailing tax rate(s) of the tax payer and based on applicable tax rules. Bilateral or unilateral tax credits may be allowed if the same income has suffered foreign tax, and where relevant conditions are met.

Based on the Income Tax (Unit Trust in relation to Income Received in Malaysia from Outside Malaysia) (Exemption) Order 2024, a qualifying unit trust is exempted from the payment of income tax in respect of the gross income from all sources of income under section 4 of the Act which is received in Malaysia from outside Malaysia between 1 January 2024 to 31 December 2026.

The taxation charged for the financial period is related to withholding tax derived from countries including Hong Kong, Indonesia, South Korea, Philippines, Singapore, Taiwan, and Thailand calculated at the rates prevailing in these countries.

15. TRANSACTIONS WITH THE MANAGER AND BROKERS (CONT'D.)

The Manager is of the opinion that the above transactions have been entered in the normal course of business and have been established under terms that are no less favourable than those arranged with independent third parties.

The above transactions are in respect of listed equity securities and CIS. Transactions in unquoted CIS do not involve any commission or brokerage fee.

16. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks that include market risk, credit risk, liquidity risk, single issuer risk, regulatory risk, country risk, management risk and non-compliance risk.

Risk management is carried out by closely monitoring, measuring and mitigating the above said risks, careful selection of investments coupled with stringent compliance to investment restrictions as stipulated by the Capital Markets and Services Act 2007, Securities Commission Malaysia's Guidelines on Unit Trust Funds and the Deeds as the backbone of risk management of the Fund.

(a) Market risk

The Fund's principal exposure to market risk arises primarily due to changes in the market environment, global economic and geo-political developments.

The Fund's market risk is affected primarily by the following risks:

(i) Price risk

Price risk refers to the uncertainty of an investment's future prices. In the event of adverse price movements, the Fund might endure potential loss on its investments. In managing price risk, the Manager actively monitors the performance and risk profile of the investment portfolio.

(ii) Interest rate risk

Interest rate risk will affect the value of the Fund's investments, given the interest rate movements, which are influenced by regional and local economic developments as well as political developments.

Domestic interest rates on deposits and placements with licensed financial institutions are determined based on prevailing market rates.

(iii) Currency risk

Currency risk is associated with the Fund's financial assets and financial liabilities that are denominated in currencies other than the Fund's functional currency. Currency risk refers to the potential loss the Fund might face due to unfavorable fluctuations of currencies other than the Fund's functional currency against the Fund's functional currency.

(b) Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Fund by failing to discharge an obligation. Credit risk applies to short-term deposits and dividend/distribution receivables. The issuer of such instruments may not be able to fulfill the required interest payments or repay the principal invested or amount owing. These risks may cause the Fund's investments to fluctuate in value.

Cash at banks are held for liquidity purposes and are not exposed to significant credit risk.

(c) Liquidity risk

Liquidity risk is defined as the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial assets. Exposure to liquidity risk arises because of the possibility that the Fund could be required to pay its financial liabilities or redeem its units earlier than expected. This is also the risk of Fund experiencing large redemptions, when the Investment Manager could be forced to sell large volumes of its holdings at unfavorable prices to meet redemption requirements.

The Fund maintains sufficient level of liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellations of units by unit holders. Liquid assets comprise of cash at banks, deposits with licensed financial institutions and other instruments, which are capable of being converted into cash within 5 to 7 days. The Fund's policy is to always maintain a prudent level of liquid assets so as to reduce liquidity risk.

16. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(c) Liquidity risk (cont'd.)

The Fund's financial liabilities have contractual maturities of not more than six months.

(d) Single issuer risk

Internal policy restricts the Fund from investing in securities issued by any issuer of not more than a certain percentage of its NAV. Under such restriction, the risk exposure to the securities of any single issuer is diversified and managed based on internal/external ratings.

(e) Regulatory risk

Any changes in national policies and regulations may have effects on the capital market and the NAV of the Fund.

(f) Country risk

The risk of price fluctuation in foreign securities may arise due to political, financial and economic events in foreign countries. If this occurs, there is a possibility that the NAV of the Fund may be adversely affected.

(g) Management risk

Poor management of the Fund may cause considerable losses to the Fund that in turn may affect the NAV of the Fund.

(h) Non-compliance risk

This is the risk of the Manager or the Trustee not complying with their respective internal policies, the Deeds, securities laws or guidelines issued by the regulators relevant to each party, which may adversely affect the performance of the Fund.
