State of Affairs	There has been neither significant change to the state of affairs of the Fund nor any circumstances that materially affect any interests of the unitholders during the financial period under review.
Rebates and Soft Commission	During the period, the management company did not receive soft commissions by virtue of transactions conducted for the Fund.
Market Review	Malaysian bond market was under pressure in October 2024 as investor turned bearish bias, influenced by the sell-off in United States Treasury (UST) driven by uncertainties surrounding United States (US) presidential election and prospect of slower rate cut by US Federal Reserve (Fed). Sentiment was generally weaker throughout the month despite Budget 2025 tabled by Prime Minister (PM) Anwar on 18 October projected a narrower deficit of -3.8% of Gross Domestic Product (GDP) for 2025. Overall, Malaysian Government Securities (MGS) curve bear flattened, with yields rose 6-22bps on Month-on-Month (MoM) basis in October. In November. Malaysian bond market rallied as investor were influenced by similar bullish sentiment in UST in the later part of the month, coupled with Bank Negara Malaysia (BNM) announcement of the cancellation of the 3-year Government Investment Issue (GII). The lower government bond supply in the market resulted in a buoyant sentiment with MGS yields fell between 5-15bps on MoM basis in November. In December, Malaysian bond market traded marginally weaker amidst profit taking activities on the back of bearish global bond backdrop and partly contributed by a lack of liquidity in second half of December as many were away for year-end holiday. This was despite positive news from BNM on the announcement of a much smaller than expected final government bond auction for the year. Overall, MGS yields rose 1-4bps, except for the ultra-long end 30-Year MGS which declined 1bps on a MoM basis in December.
Market Outlook	The Malaysian bond market is expected to remain rangebound in the absence of significant catalysts, with Bank Negara Malaysia (BNM) maintaining the Overnight Policy Rate (OPR) at 3.00% throughout 2025.
