This Product Highlights Sheet is an important document:

- **It is a summary of the salient information about the Fund.**
- **You MUST NOT invest in the Fund based on this Product Highlights Sheet alone.** Please read the Prospectus before deciding to make an investment. If you do not have a copy, please contact us to ask for one.
- You should not invest in the Fund if you do not understand it or are not comfortable with the accompanying risks.

What is the Fund about?

AmIncome is a short to medium-term fixed income fund issued by AmFunds Management Berhad (the “Manager”) that aims to provide investors with a regular stream of monthly income by investing in money market and other fixed income instruments.

Who is the Fund suitable for?

The Fund is suitable for investors:

- seeking to invest the cash portion of the investment portfolio;
- seeking to preserve capital**;
- seeking to invest excess cash for short-term***;
- seeking a stream of potential monthly income*; and
- with short or medium-term**** investment goals.

Notes:

* Income distribution (if any) could be in the form of units or cash.

** Capital preservation does not mean that the capital is guaranteed or protected.

*** Short-term refers to a period of one (1) year or less.

**** Short to medium-term refers to an investment horizon of one (1) to three (3) years.

What am I investing in?

Fund Category	Fixed income.
Fund Type	Income.
Investment Objective	<p>AmIncome aims to provide you with a regular stream of monthly income* by investing in money market and other fixed income instruments.</p> <p><i>Notes: Any material change to the investment objective of the Fund would require unit holders' approval.</i></p> <p>* The income could be in the form of units or cash.</p>
Investment Strategy	<p>The Fund seeks to achieve its objective by investing in RM-denominated short to medium-term fixed income instruments (i.e. debt instruments with maturity of no longer than five (5) years) with the following minimum credit rating:</p> <ol style="list-style-type: none"> i. Short-term credit rating of P2 by RAM or its equivalent as rated by a local or global rating agency; or ii. Long-term credit rating of A3 by RAM or its equivalent as rated by a local or global rating agency. <p>If the credit rating of the instruments falls below the above minimum rating, the Fund may dispose of the investment. However, the Fund reserves the right to maintain the investment if the downgrade is a temporary event. The Fund's investments are structured to mature as follows:</p> <ol style="list-style-type: none"> a. At least 10% of the investments within seven (7) days; b. At least 20% of the investments within thirty-one (31) days. <p>With the exception of unforeseeable circumstances (e.g. in the event of a default, the restructuring or the recovery process may take longer than the maturity of the debt instrument), the weighted average maturity of the Fund's investments will not exceed one and a half (1.5) years.</p> <p>The Fund may also invest in negotiable instruments of deposit with tenure of five (5) years or less up to 30% of the Fund's net asset value (“NAV”). The issuers of the negotiable instruments of deposit must have a minimum long-term credit rating of BBB3 by RAM or its equivalent as rated by a local or global rating agency.</p> <p>In the event of a credit downgrade of the issuer below the minimum rating requirement or where the Manager at its discretion feels that there is a likelihood of credit default, the Manager may want to partially or fully unwind the particular instruments. A credit downgrade means that credit risk has increased but it does not mean that there will be a default. A credit downgrade will generally have no impact on the value of the negotiable instruments of deposit upon its maturity if a credit default did not occur. However, if the Manager chooses to unwind the instrument prior to its maturity, it may result in capital losses and these losses will be borne by the Fund and reflected in its NAV.</p>

	<p>Although the Fund is actively managed, the frequency of its trading strategy will very much depend on market opportunities.</p> <p>All income from the investments will be accrued and allocated to unit holders on a daily basis in order for the Manager to maintain a stable NAV per unit of RM1.00. However, please note that the Fund is not a capital protected or capital guaranteed fund as defined under the SC Guidelines.</p> <p><i>Note: "Short-term credit rating" refers to the credit rating of an instrument for a period of less than twelve (12) months issued by credit rating agency whereas "long-term credit rating" refers to a credit rating for a period of at least five (5) years.</i></p>
Asset Allocation	<ul style="list-style-type: none"> At least 70% of the Fund's NAV will be invested in money market instruments, short to medium-term fixed income instruments (i.e. debt instruments with a term to maturity of no longer than five (5) years) and negotiable instruments of deposit with tenure of five (5) years or less, where investment in negotiable instruments of deposit is capped at 30%; and Up to 30% of the Fund's NAV in cash.
Base Currency	Ringgit Malaysia (RM).
Performance Benchmark	<p>Malayan Banking Berhad 1-Month Fixed Deposit Rate. (obtainable from: www.maybank2u.com.my)</p> <p><i>Note: The benchmark does not imply that the risk profile of the Fund is the same as the risk profile of the benchmark. Investors of the Fund will assume a higher risk compared to the benchmark. Hence, the returns of the Fund may be potentially higher due to the higher risk faced by the investors.</i></p>
Launch Date	20 January 2000
Distribution Policy	<p>Subject to the availability of income, distribution will be made on a monthly basis.</p> <p>At the Manager's discretion, the Fund may distribute from its gain, income and capital. The rationale for distribution out of capital is to allow the Fund the ability to (i) distribute income on a regular basis in accordance with the distribution policy of the Fund or (ii) increase the amount of distributable income to the unit holders, after taking into consideration the risk of distributing out of capital.</p> <p>Distribution out of the Fund's capital has the effect of lowering the NAV of the Fund, may reduce part of the unit holders' original investment and may also result in reduced future returns to unit holders. When a substantial amount of the original investment is being returned to the unit holders, it has a risk of eroding the capital of the Fund and may, over time, cause the NAV of the Fund to fall. The greater the risk of capital erosion that exists, the greater the likelihood that, due to capital erosion, the value of future returns would also be diminished.</p>

Who am I investing with?

Manager	:	AmFunds Management Berhad ("AFM")
Trustee	:	HSBC (Malaysia) Trustee Berhad
Trustee's Delegate (Custodian)	:	AmBank (M) Berhad
Taxation Advisor	:	Deloitte Tax Services Sdn Bhd
Auditor	:	Ernst & Young PLT

All transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arm's length transaction between independent parties. The Fund may have dealings with parties related to the Manager. The related parties defined are AmIslamic Funds Management Sdn Bhd, AmInvestment Bank Berhad, AmInvestment Group Berhad, AmBank (M) Berhad and AmBank Islamic Berhad. The directors of AFM may have direct or indirect interest through their directorships in parties related to AFM.

The Manager may conduct cross trades between funds and private mandates it is currently managing provided that all criteria imposed by the regulators are met. Notwithstanding the above, cross trades between the personal account of an employee of the Manager and the Fund's account and between the Manager's proprietary trading accounts and the Fund's account are strictly prohibited. The execution of cross trade will be reported to the person(s) or members of a committee undertaking the oversight function of the Fund disclosed in the Fund's report accordingly.

What are the possible outcomes of my investment?

Best Case	Income distribution.
Mid Case	No significant change in investment i.e. no income distribution.
Worst Case	Capital loss and with no income distribution.

What are the key risks associated with the Fund?

General Risks Associated with Investing in a Unit Trust Fund

Market Risk	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors resulting in a decline in a fund's NAV.
Inflation Risk	This is the risk that investors' investment in a fund may not grow or generate income at a rate that keeps pace with inflation.

Manager's Risk	This risk refers to the day-to-day management of a fund by the manager which will impact the performance of a fund.
Non-Compliance Risk	This is the risk of the manager, the investment manager or the trustee not complying with their respective internal policies, the deed and its supplemental deeds, securities law or guidelines issued by the regulators relevant to each party, which may adversely affect the performance of a fund.
Loan Financing Risk	This risk occurs when investors take a loan/financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan repayments.
Country Risk	Investments of a fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the fund invests in.
Suspension Risk	Refers to situation where the Manager suspends dealings of units in a fund (no redemption or subscription are allowed) under exceptional circumstances as set out in the Prospectus - Temporary suspension of determination of NAV and of the issue, switching and redemption of units. Suspension of a fund may potentially result in unit holders not being able to redeem their units into cash based on their liquidity needs and their investments will continue to be subject to the risk factors inherent in the Fund.

Specific Risks associated with the Fund

Credit and Default Risk	Credit risk relates to the creditworthiness of the issuers of the fixed income instruments and their expected ability to make timely payment of profit or interest and/or principal. Default risk relates to the risk that an issuer of a fixed income instrument either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the fixed income instruments.
Cancellation of Units Risk	This is the risk that occurs when the Fund suffers losses and the value of a unit of the Fund goes below RM1.00 and a consolidation exercise is carried out. A suspense account is created during the consolidation exercise where the investment loss is apportioned to each unit holder in accordance to their unit holdings. Such units will be cancelled once the consolidation exercise is completed. As a result, this will lead to a reduction in your unit holdings.
Income Distribution Risk	The distribution of income is not guaranteed.
Liquidity Risk	Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund and consequently the value of the unit holders' investments in the Fund will be negatively affected when it has to sell such assets at unfavourable prices.
Interest Rate Risk	Interest rate risk refers to the impact of interest rate changes on the valuation of fixed income instruments. When interest rates rise, fixed income instruments prices generally decline and this may lower the market value of the Fund's investment in fixed income instruments. The reverse may apply when interest rates fall.
Counterparty Credit Risk	Counterparty credit risk is the risk arising from the possibility that the counterparty may default or not able to fulfill a trade settlement prior or on the settlement date of the trade. This could adversely affect the value of the Fund.

Note: The abovementioned risks which investors should consider before investing into the Fund should not be considered to be an exhaustive list. Investors should be aware that investments in the Fund may be exposed to other unforeseeable risks from time to time. Investors are advised to consult their professional adviser. Please refer to the Prospectus under "Risk Factors" for further details on risks.

Please note that if you invest in units through a distributor via a nominee system of ownership, you will not be deemed a unit holder under the deed of the Fund.

What are the fees and charges involved?

There are fees and charges involved and you are advised to consider them before investing in the Fund.

What will I be charged by AFM?

Entry Charge	There is no entry charge for this Fund.
Exit Penalty	There is no exit penalty for this Fund.
Transfer Fee	Nil.
Bank Charges/Fees	Bank charges or fees are incurred only upon withdrawal.
Switching Fee	For switches between any of the funds managed by AFM, investors will be charged on the differences of entry charge between funds switched, which is up to a maximum of 6% of NAV per unit of the fund switched into. No entry charge will be imposed if the fund to be switched into has a lower entry charge. However, the Manager has the discretion to waive or reduce the switching fee. Switching may also be subject to an exit penalty should the Fund switched out impose an exit penalty.

What are the key ongoing fees charged to the Fund?

Annual Management Fee	Up to 0.75% per annum of the NAV of the Fund.
Annual Trustee Fee	Up to 0.05% per annum of the NAV of the Fund.

Note: Unless stated otherwise, all fees, charges and/or expenses disclosed in this Product Highlights Sheet are exclusive by way of example and not limitation; goods and services tax, value added tax, consumption tax, levies, duties and other taxes as may be imposed by the Government of Malaysia from time to time (collectively known as "Taxes"). If these fees, charges and/or expenses are subject to any Taxes, such Taxes shall be borne and payable by the unit holders and/or the Fund (as the case may be) at the prevailing rate, including any increase or decrease to the rate, in addition to the fees, charges and/or expenses stated herein.

You are advised to consider the fees and charges involved before investing in the Fund. Unit prices and distributions payable, if any, may go down as well as up.

How will I be notified of any increase in fees and charges?

- A written communication will be sent to unit holders to notify of the higher rate and its effective date; and
- A supplementary or replacement prospectus will be registered and issued.

How often are valuations available?

We publish updated information on our website www.aminvest.com; and the NAV per unit of the Fund is sent to the Federation of Investment Managers Malaysia ("FIMM") in order for it to be published in major newspapers on a daily basis.
