The Investment Manager will be targeting Islamic REITs that have been generating regular income returns and have potential for capital growth. In evaluating suitability of an Islamic REIT, the Investment Manager, amongst other factors will review the track record,</p>								

	<p>investment portfolio, financial status, income distribution policy and cost factors of the Islamic REIT.</p> <p>In an adverse market condition, the Investment Manager may increase its asset allocation to lower risk assets such as Islamic deposits and Islamic money market instruments to safeguard the investment of the Fund. During this period, the Fund's investment may differ from the stipulated investment strategy.</p> <p>The Fund is actively managed. However, the frequency of its trading strategy will depend on investment opportunities.</p>
Asset Allocation	<ul style="list-style-type: none"> ▪ 85% - 98% of the Fund's NAV will be invested in Islamic REITs; and ▪ Between 2% and 15% of the Fund's NAV in Islamic deposits and Islamic money market instruments.

3.2. Risk Factors

All investments carry some degree of risk. Therefore, before making an investment decision, an investor should consider the different types of risk that may affect the Fund or the investor individually. This section provides you with information on the general risks involved when investing in a unit trust fund and the specific risk associated with the Fund.

General Risks Associated With Investing In A Unit Trust Fund	
Market Risk	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's net asset value.
Inflation Risk	This is the risk that investors' investment in a unit trust fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.
Manager's Risk	This risk refers to the day-to-day management of a unit trust fund by the manager which will impact the performance of the fund. For example, investment decisions undertaken by the manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the fund.
Non-Compliance Risk	This is the risk of the manager, the investment manager or the trustee not complying with their respective internal policies, the deed and its supplemental deed, securities law or guidelines issued by the regulators relevant to each party, which may

	<p>adversely affect the performance of a unit trust fund when the manager, the investment manager or the trustee takes action to rectify the non-compliance. For example, non-compliance could occur due to factors such as human error or shortfalls in operational and administrative processes, or external factors such as market movements.</p> <p>This risk may be mitigated by having sufficient internal controls in place to ensure compliance with all applicable requirements at all times.</p>
Country Risk	<p>Investments of the fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the fund invests in. For example, the deteriorating economic condition of the countries may adversely affect the value of the investments undertaken by the fund in those affected countries. This in turn may cause the net asset value or prices of units to fall.</p>
Financing Risk	<p>This risk occurs when investors take a financing to finance their investment. The inherent risk of investing with financed money includes investors being unable to service the financing payments. In the event units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of units fall below a certain level due to market conditions. Failing which, the units may be sold at a lower net asset value per unit as compared to the net asset value per unit at the point of purchase towards settling the financing.</p> <p><i>Note: The Manager does not provide financing for the purchase of units of the Fund. However, if an investor obtains financing from other providers, this is the risk that the investor should be aware of.</i></p>
Suspension Risk	<p>Refers to situation where the Manager suspends dealings of units in a fund (no redemption or subscription are allowed) under exceptional circumstances as set out in Section 5.7 Temporary suspension of determination of NAV and of the issue, switching and redemption of units. Suspension of a fund may potentially result in unit holders not being able to redeem their units into cash based on their liquidity needs and their investments will continue to be subject to the risk factors inherent in the Fund.</p>
Liquidity Risk	<p>Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund and consequently the value of the Unit Holders' investments in the Fund will be negatively affected when it has to sell such assets at unfavorable prices.</p>

Specific Risks Uniquely Associated With The Investment Portfolio Of The Fund	
Risks associated with Investment in Islamic REITs	Investing in Islamic REITs involves many of the same risks associated with direct ownership of real estate, including possible declines in real estate's value, increase in interest rates and real estate borrowing costs, changes in property taxes, higher operating expenses or higher costs of environmental clean-up, damages from natural or man-made disasters, fluctuations in rent payments due to poor demand and excess supply in real estate space. In addition, some real estate companies, including Islamic REITs, utilize leverage (and some may be highly leveraged). Financial leverage or debt financing acts like a lever in the sense that using it may greatly magnify both gains and losses of the Islamic REITs. The potential magnification of gains and losses, and the consequent volatility in the net asset value of the Islamic REITs may result in the Islamic REITs exhibiting higher price volatility in the stock market, which in turn may pose a higher risk to Islamic REITs investors.
Sectoral Risk	<p>As the Fund invests only in real estate sector, this Fund would be significantly affected by developments in this sector, because the Fund's investment is limited to a relatively narrow segment of the economy, the Fund's investment may not be as diversified as other funds. Due to the sector concentration, this Fund may be more volatile than other funds and therefore its portfolio value can increase or decrease more rapidly compared to other funds.</p> <p>This risk is mitigated by careful country allocation and stock selection by the Manager.</p>
Distribution Risk	<p>It should be noted that the distribution of income is not guaranteed. Circumstances preventing the distribution of income include, among others, insufficient realised gains or realised income to enable income distribution. The Fund may distribute from its realised gain, realised income and capital.</p> <p>Capital distributions represent a return or withdrawal of part of the amount of your original investment and/or capital gains attributable to the original investment and will result in a reduction in the NAV per unit of the Fund and reduce the capital available for future investment and capital growth. Future capital growth may therefore be constrained.</p>
Currency Risk	As the investments of the Fund may be denominated in currencies other than the base currency, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware

	<p>that if the currencies in which the investments are denominated depreciate against the base currency, this will have an adverse effect on the NAV of the Fund in the base currency and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.</p> <p>Note that the Fund also offers multiple currency classes. When the base currency of the Fund depreciates against the denominated currency of the Class(es), the Class(es) will suffer currency losses. This is in addition to any gains or losses derived from the Fund's investments.</p> <p>The Manager may at its discretion hedge the currency exposure of its foreign Shariah-compliant investments and/or any of the currency Class(es) against the base currency of the Fund to mitigate currency risk for the benefit of the Fund and the Class(es). Note that while hedging assist with mitigating the potential foreign exchange losses by the Fund and/or protects the Fund against depreciation in the base currency of the Fund against the currency of the Class(es), any potential gains from the hedging strategy will be capped as well and/or it also caps the Class(es) from benefiting from an appreciation in the base currency of the Fund against the currency of the Class(es).</p>
<p>Shariah Non-Compliance Risk</p>	<p>This is the risk of the Fund not conforming to Shariah Investment Guidelines. The appointed Shariah Adviser for the Fund would be responsible for ensuring that the Fund is managed and administered in accordance with Shariah Investment Guidelines. Note that as the Fund can only invest in Shariah compliant instruments, Shariah non-compliance may adversely affect the NAV of the Fund when the rectification of Shariah non-compliance results in losses.</p> <p>If the Shariah non-compliance is due to active breach by the Investment Manager (i.e. buying a Shariah non-compliant investment), then any gain received arising from the disposal of the Shariah non-compliant investment shall be channeled to Baitulmal and/or charitable bodies as advised by the Shariah Adviser; however, if there is a loss arising from the disposal, the Investment Manager shall bear the loss, subject to the consultation with the Shariah Adviser.</p>
<p>Reclassification of Shariah Status Risk</p>	<p>This risk refers to the risk that the currently held Shariah-compliant securities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the SAC of the SC, the Shariah Adviser or the Shariah boards of the relevant Islamic indices. If this occurs, the Manager will take the necessary and allowable steps to rectify the non-</p>

compliance by taking into consideration of the interest of the Unit Holders.

Note: The abovementioned risks which investors should consider before investing into the Fund should not be considered to be an exhaustive list. Investors should be aware that investments in the Fund may be exposed to other risks of an exceptional nature from time to time.

3.3. Risk Management Strategy

Risk management of the Fund forms an integral part of the investment process. The Fund's portfolio is constructed and managed within pre-determined guidelines including risk returns trade-off, which will be reviewed periodically by the Manager. Assessment of risk is an important part of the asset allocation process. The Manager has the discretion to select Shariah-compliant instruments/securities from the authorised investment list

When deemed necessary, the Investment Manager may also utilize Islamic hedging instruments, subject to the SC Guidelines, for hedging purpose. In the event of a downgrade of a counter-party of an OTC Islamic derivative below the minimum credit rating as per the SC Guidelines, the Investment Manager should within six (6) months or sooner, if the Trustee considers it to be in the best interest of Unit Holders, the Investment Manager would deliberate a recommended and appropriate action to mitigate risk associated with such OTC Islamic derivative and may extend to unwinding of such OTC Islamic derivative if there is a need to terminate current position to ensure compliance with the SC Guidelines.

In respect of liquidity risk management, the Manager identifies, monitors and mitigates liquidity risks of the Fund on an on-going basis to ensure that the liquidity profile of the Fund's investments is able to comply with the SC's regulatory requirement to meet redemption proceeds within a stipulated period. In doing so, the Manager will consider factors which include liquidity of the Fund's holdings, any investor concentration and the Fund's ability to respond to any sizeable redemptions, if any.

The Manager may combine the following liquidity management tools:

- Obtain Islamic cash financing of up to 10% of the Fund's NAV from Islamic financial institutions.
- Suspension of dealing of units of the Fund (due to exceptional circumstances, where there is good and sufficient reason to do so, considering the interests of Unit Holders) as a last resort after all other liquidity risk management tools have been exhausted. Any redemption request received by us during the suspension period will only be accepted and processed on the next Business Day after the cessation of suspension of the Fund. Please refer to Section 5.7 Temporary suspension of determination of NAV and of the issue, switching and redemption of units on page 36 for further information.

3.4. Other Information

<p>Distribution Policy</p>	<p>Subject to availability of income, distribution will be paid at least annually and can be in the form of cash or units.</p> <p>At the Manager's discretion, the Fund may distribute from its gain, income and capital. The rationale for distribution out of capital is to allow the Fund the ability to (i) distribute income on a regular basis in accordance with the distribution policy of the Fund or (ii) increase the amount of distributable income to the Unit Holders, after taking into consideration the risk of distributing out of capital.</p> <p>Distribution out of the Fund's capital has the effect of lowering the NAV of the Fund, may reduce part of the Unit Holders' original investment and may also result in reduced future returns to Unit Holders. When a substantial amount of the original investment is being returned to the Unit Holders, it has a risk of eroding the capital of the Fund and may, over time, cause the NAV of the Fund to fall. The greater the risk of capital erosion that exists, the greater the likelihood that, due to capital erosion, the value of future returns would also be diminished.</p> <p><i>Notes:</i></p> <ul style="list-style-type: none"> - <i>Distribution amount (if any) for each of the Classes could be different subject to the sole discretion of the Manager.</i> - <i>If distribution earned does not exceed RM500 for RM Class and RM Hedged Class/USD 500 for USD Class, it will be automatically reinvested.</i>

Nevertheless, the three (3)-month period may be extended if it is in the best interests of Unit Holders and the Trustee's consent has been obtained. Such extension must be subject to at least a monthly review by the Trustee.

Use of Islamic derivatives

Calculation of Global Exposure to Islamic Derivatives

$$\text{Global Exposure} = a + b + c$$

with

a = Absolute value of exposures of each individual Islamic derivative not involved in hedging or netting

b = Absolute value of net exposures of each individual Islamic derivative after hedging or netting

c = Cash collateral received pursuant to:

(i) the reduction of exposures to OTC Islamic derivatives' counterparty; and

(ii) efficient portfolio management technique relating to securities lending and repurchasing transactions (where applicable).

Netting and hedging arrangements may be taken into account to reduce the Fund's exposure to Islamic derivatives.

Netting arrangements

The Fund may net positions between:

- (a) Islamic derivatives on the same underlying constituents, even if the maturity dates are different; or
- (b) Islamic derivatives and the same corresponding underlying constituents, if those underlying constituents are Shariah-compliant transferable securities, Islamic money market instruments, or units or shares in Islamic CIS.

Hedging arrangements

The marked-to-market value of Shariah-compliant transferable securities, Islamic money market instruments, or units or shares in Islamic CIS involved in hedging arrangements may be taken into account to reduce the exposure of the Fund to Islamic derivatives.

The hedging arrangement must:

- (a) not be aimed at generating a return;
- (b) result in an overall verifiable reduction of the risk of the Fund;
- (c) offset the general and specific risks linked to the underlying constituent being hedged;
- (d) relate to the same asset class being hedged; and
- (e) be able to meet its hedging objective in all market conditions.

Calculation of Exposure to Counterparty of OTC Islamic derivatives

The exposure to a counterparty of an OTC Islamic derivative must be measured based on the maximum potential loss that may be incurred by the Fund if the counterparty defaults and not on the basis of the notional value of the OTC Islamic derivative.

The total exposure to a single counterparty is calculated by summing the exposure arising from all OTC Islamic derivative transactions entered into with the same counterparty.

Subject to the aggregate limit under the “Investment Limits And Restrictions” section, the maximum exposure of the Fund to the counterparty, calculated based on the above method, must not exceed 10% of the Fund’s NAV.

Cross Trade

The Manager may conduct cross trades between funds and private mandates which it is currently managing provided that all criteria imposed by the regulators are met.

Notwithstanding the above, cross trades between the personal account of an employee of the Manager and the Fund’s account and between the Manager’s proprietary trading accounts and the Fund’s account are strictly prohibited. The execution of cross trade will be reported to the person(s) or members of a committee undertaking the oversight function of the Fund and disclosed in the Fund’s report accordingly.

	USD Class	RM Class	RM Hedged Class
Annual management fee	Up to 1.50% p.a.		
	of the Fund's NAV attributable to this Class		

An illustration of the calculation and apportionment of the daily management fee is as follows:

Management fee of the day = NAV attributable to the Class x management fee rate of the relevant Class (%) x 1/365 days

	USD Class	RM Class	RM Hedged Class
NAV	USD 45,000,000	USD 45,000,000	USD 45,000,000
Annual management fee	1.50%	1.50%	1.50%
Management fee of the day	$\frac{45,000,000 \times 1.50\%}{365 \text{ days}}$	$\frac{45,000,000 \times 1.50\%}{365 \text{ days}}$	$\frac{45,000,000 \times 1.50\%}{365 \text{ days}}$

An illustration of the trustee fee per day is as follows:

Assuming the NAV of the Fund is USD 45 million and the trustee fee is 0.05% p.a. of the NAV of the Fund, then the daily accrued trustee fee would be: -

Trustee Fee for the day	USD

= 0.05% x USD 45,000,000 x 1/365	61.64

will not enter into unnecessary trades in order to achieve a sufficient volume of transactions to qualify for soft commissions.

THERE ARE FEES AND CHARGES INVOLVED AND INVESTORS ARE ADVISED TO CONSIDER THEM BEFORE INVESTING IN THE FUND.

5. TRANSACTION INFORMATION

5.1. Valuation Of Assets

In undertaking any of its investments, the Manager will ensure that all the assets of the Fund are valued at fair value in compliance with the SC Guidelines and relevant laws at all times. Investments of the Fund are valued in accordance to the following:

- i. Units in Islamic CIS
The value of any investment in Islamic CIS which are quoted on an approved exchange shall be based on the last done market price of the respective exchange. When investing in unlisted Islamic CIS, the value shall be determined by reference to the last published repurchase price for that Islamic CIS.
- ii. Islamic money market instruments and Islamic deposits
The value of any investment in Islamic deposits placed with Islamic financial institutions shall be determined on each Business Day, with reference to the principal value of such investments and the accrued income for the relevant period.

For Islamic money market instruments the valuation is based on marked to market prices as provided by the counterparty that issues the Islamic money market instruments.

- iii. Islamic derivative instruments
The valuation is based on marked to market prices as provided by the counterparty that issues the Shariah-compliant instruments. The Manager shall ensure that the marked to market prices are fair values as determined in good faith by the Manager. The methods or bases of valuation will have to be verified by the Auditor of the Fund and approved by the Trustee.

5.2. Pricing and Valuation Points

The Fund adopts a single pricing policy which means subscription and redemption of units will be carried out at the NAV per unit of the relevant Class(es).

The Fund also adopts forward pricing which means price for units will be calculated at the next valuation point after we received your completed subscription and redemption requests.

A valuation of any assets of the Fund will be carried out at least once a day. Since the Fund may invest up to 100% of its NAV in foreign markets, the valuation of the Fund will be carried out by 5.00 p.m. on the next Business Day. This is to cater for the currency translation of the foreign securities/ instruments to the Fund's base currency based on the bid exchange rate quoted by Bloomberg/Reuters at 4.00 pm (UK time) which is equivalent to 11.00 pm or 12.00 midnight (Malaysian time) on the same day, or such other time as stipulated in the Investment Management Standards issued by the FIMM.

The investor will buy and sell units at the NAV per unit which will be calculated at the next valuation point after the completed documents for an application to subscribe and a request to redeem units is received by the Manager.

Incorrect Pricing

In the event of any incorrect valuation or pricing of units of the relevant Class(es), the Manager shall take immediate remedial action to rectify the incorrect valuation or pricing. Where the incorrect valuation or pricing:

- (i) is equal or more than zero point five per centum (0.5 %) of the NAV per unit attributable to a Class; and
- (ii) results in a sum total of RM10.00 or more (or in the case of a foreign currency Class, more than 10.00 denominated in the foreign currency denomination of the Class),

then the Manager shall reimburse the relevant Class(es) and the affected Unit Holder as follows:

- (a) where the error is as a result of over valuation (i.e. the price quoted is higher than the actual price), the Manager shall reimburse:
 - (i) the Fund (for the difference between the redemption amount paid out by the relevant Class(es) and the amount per the amended valuation); and/or
 - (ii) the Unit Holders (for the difference between the value of subscription proceeds paid by the Unit Holder and the amount per the amended valuation);
- (b) where the error is as a result of under valuation (i.e. the price quoted is lower than the actual price), the Manager shall reimburse:
 - (i) the relevant Class(es) (for the difference between the value of subscription proceeds paid by the Unit Holder and the amount per the amended valuation); and/or
 - (ii) the Unit Holders (for the difference between the redemption amount paid out by the relevant Class(es) and the amount per the amended valuation).

Subject to any regulatory requirements, the Manager shall have the right to amend, vary or revise the above said limits or threshold from time to time.

NAV per unit of the Class(es)

Due to the multiple Classes in the Fund, the valuation of the Fund will be done in the Fund's base currency i.e. USD. As such, all assets and/or cash that are not denominated in USD will be converted to USD for valuation purposes. The foreign exchange rate used for this purpose shall be based on the bid exchange rate quoted by Bloomberg or Reuters at 4.00 pm (UK time) which is equivalent to 11.00 p.m. or 12.00 midnight (Malaysian time) on the same day, or such other time as stipulated in the Investment Management Standards issued by the FIMM.

5.5. Distribution

Distribution policy	<p>Subject to availability of income, distribution will be paid at least annually and can be in the form of cash or units.</p> <p>At the Manager's discretion, the Fund may distribute from its gain, income and capital. The rationale for distribution out of capital is to allow the Fund the ability to (i) distribute income on a regular basis in accordance with the distribution policy of the Fund or (ii) increase the amount of distributable income to the Unit Holders, after taking into consideration the risk of distributing out of capital.</p> <p>Distribution out of the Fund's capital has the effect of lowering the NAV of the Fund, may reduce part of the Unit Holders' original investment and may also result in reduced future returns to Unit Holders. When a substantial amount of the original investment is being returned to the Unit Holders, it has a risk of eroding the capital of the Fund and may, over time, cause the NAV of the Fund to fall. The greater the risk of capital erosion that exists, the greater the likelihood that, due to capital erosion, the value of future returns would also be diminished.</p> <p><i>Notes:</i></p> <ul style="list-style-type: none">- <i>Distribution amount (if any) for each of the Classes could be different subject to the sole discretion of the Manager.</i>- <i>If distribution earned does not exceed RM500 for RM Class and RM Hedged Class or USD 500 for USD Class, it will be automatically reinvested.</i>
Mode of distribution	<p>(a) <u>Reinvest distribution</u> Distribution will be automatically reinvested into Unit Holder's account with us at no cost, based on the NAV per unit of the relevant Class at the end of the Business Day of the distribution date.</p> <p>(b) <u>Receive distribution</u> Instruct us to deposit the distribution earned into a bank account held in Unit Holder's own name or the first named Unit Holder (for joint account).</p> <p><i>Notes:</i></p> <ul style="list-style-type: none">- <i>If distribution earned does not exceed RM500 for RM Class and RM Hedged Class or USD 500 for USD Class, it will be automatically reinvested.</i>- <i>If Unit Holders do not elect the mode of distribution in the account opening form or transaction form, and if distribution is paid, it will be automatically reinvested in the form of units at no cost, based on the</i>

All Unit Holders including those who have requested for subscription and/or switching and/or redemption of their units will be notified in writing of any such suspension of the right to subscribe, to switch or to require redemption of units and will be promptly notified upon the cessation of such suspension. Any suspension shall be in accordance with the Deed.

Any redemption request received by us during the suspension period will only be accepted and processed on the next Business Day after the cessation of suspension of the Fund.

The Fund is prohibited from borrowing other assets (including borrowing of securities within the meaning of Securities Borrowing and Lending Guidelines) in connection with its activities. However, the Fund may obtain Islamic cash financing for the purpose of meeting redemption requests for units of the Fund and for short-term bridging requirements. Notwithstanding the above and subject to the provisions of any relevant law, the Manager may without having to obtain the prior approval of the Unit Holders, terminate a particular Class if the termination of the Class is in the best interests of the Unit Holders of the Class and the Manager in consultation with the Trustee deems it to be uneconomical for the Manager to continue managing the Class.

Dear Sirs

AmIslamic Global REITs Fund Taxation of the Fund and Unit Holders

1. This letter has been prepared for inclusion in the Prospectus (hereinafter referred to as “the Prospectus”) in connection with the offer for sale of units in the **AmIslamic Global REITs Fund** (“the Fund”).

The following is general information based on Malaysian tax law in force at the time of lodging the Prospectus with the SC and investors should be aware that the tax law may change at any time. The application of tax law depends upon an investor’s individual circumstances. The information provided below does not constitute tax advice. The Manager therefore recommends that investors consult their tax adviser regarding the specific application of the tax law relating to their specific tax position.

2. Taxation of the Fund

2.1 Income Tax

As the Fund’s Trustee is a tax resident in Malaysia, the Fund is regarded as a tax resident in Malaysia. The taxation of the Fund is governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 (“MITA”).

Pursuant to the Section 2(7) of MITA, any reference to interest shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah. The effect of this is that any gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of Shariah, will be accorded the same tax treatment as if they were interest.

The income of the Fund in respect of dividends, interest or profits from deposits and other investment income (other than income which is exempt from tax) derived from or accruing in Malaysia or received in Malaysia from outside Malaysia is liable to income tax. The Fund may be receiving income such as exit fee which will be subject to tax at the prevailing tax rate applicable on the Fund. Section 61(1)(b) of MITA provides that gains arising from the realisation of investments shall be treated as income of the trust body of the trust as gains or profits from the disposal of a capital asset, provided that such gains are not related to real property as defined under the Real Property Gains Tax ("RPGT") Act, 1976.

The income tax rate applicable to the Fund is 24%.

Tax exempt interest as listed in the Appendix attached received by the Fund are not subject to income tax.

With effect from 1 January 2014, Malaysia has fully moved to a single-tier income tax system. The Fund is not liable to tax on any Malaysia sourced dividends paid, credited or distributed to the Fund under the single-tier tax system, where the company paying such dividend is not entitled to deduct tax under the MITA. The tax deductibility of other deductions by the Fund against such dividend income will be disregarded in ascertaining the chargeable income of the Fund.

In addition to the single-tier dividend that may be received by the Fund, the Fund may also receive Malaysian dividends which are tax exempt from investments in companies which had previously enjoyed or are currently enjoying various tax incentives provided under the laws of Malaysia. The Fund is not subject to income tax on such tax exempt dividend income.

The Fund may also receive interest, dividends, profits and other income from investments derived from sources outside of Malaysia. Prior to 1 January 2022, income arising from sources outside Malaysia and received in Malaysia was exempted from Malaysian income tax pursuant to Paragraph 28 of Schedule 6 of the MITA. Effective from 1 January 2022, Paragraph 28 of Schedule 6 of the MITA was amended to only exempt a non-resident person from foreign sourced income received in Malaysia. Unit trusts funds with a trustee who is tax resident in Malaysia are considered tax residents of Malaysia and would not qualify for the exemption under the amended Paragraph 28 of Schedule 6 of the MITA.

The Ministry of Finance of Malaysia issued the gazette orders, Income Tax (Exemption) (No. 5) Order 2022 [P.U.(A) 234/2022] and Income Tax (Exemption) (No. 6) Order 2022 [P.U.(A) 235/2022] both dated 19 July 2022 and took effect from 1 January 2022. Certain paragraphs in P.U.(A) 235/2022 have been amended via Income Tax (Exemption) (No. 6) Order 2022 (Amendment) Order 2024 [P.U.(A) 157/2024] dated 12 June 2024. The orders grant exemption on foreign sourced income as follows:

- Dividend income received by companies, limited liability partnerships and companies incorporated under the Labuan Companies Act 1990 which have made an election under Section 3A of the Labuan Business Activity Tax Act 1990 to be charged to tax in accordance with the MITA; and
- All types of foreign sourced income received by individuals, except for those carrying on a partnership business in Malaysia.

However, as the unit trust fund is not a “company”, “limited liability partnership” or “individual”, the above gazette orders do not apply to unit trust funds.

The income of the Fund which is received in Malaysia from outside Malaysia during the period 1 January 2022 until 30 June 2022 is subject to tax at the rate of 3% on gross foreign sourced income received in Malaysia. Foreign sourced income received in Malaysia from 1 July 2022 onwards will be taxed based on the prevailing income tax rate applicable to the Fund, i.e. 24%.

The foreign sourced income of the Fund may be subject to foreign tax in the country from which the income is derived. Pursuant to Schedule 7 of the MITA, where an income is chargeable to tax in Malaysia as well as in a foreign country, a relief shall be given by way of credit known as bilateral credit if the source country has a tax treaty with Malaysia where the foreign tax credit shall be set-off up to 100% of foreign tax suffered and unilateral credit if the source country does not have a tax treaty with Malaysia where the foreign tax credit shall be set-off up to 50% of foreign tax suffered. Please note that claiming of bilateral credit and unilateral credit is subject to the approval of the Inland Revenue Board upon review of the requisite supporting documentation.

The tax treatment of hedging instruments would depend on the particular hedging instruments entered into. Generally, any gain or loss relating to the principal portion will be treated as capital gain or loss. Gains or losses relating to the income portion would normally be treated as revenue gains or losses. The gain or loss on revaluation will only be taxed or claimed upon realisation. Any gain or loss on foreign exchange is treated as capital gain or loss if it arises from the revaluation of the principal portion of the investment.

Generally, income from distribution by the Malaysia REITs will be received net of withholding tax of 10%. No further tax will be payable by the Fund on the distribution. Distribution from such income by the Fund will also not be subject to further tax in the hands of the Unit Holders.

Expenses being manager’s remuneration, maintenance of register of Unit Holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage, which are not allowed under the general deduction rules, qualify for a special deduction at the minimum of 10% of such expenses pursuant to Section 63B of the MITA.

2.2 Capital Gains Tax (“CGT”)

Based on the Finance (No. 2) Act 2023, effective 1 January 2024, CGT will be imposed on gains or profits from the disposal of capital assets. However, based on the Income Tax (Exemption)(No.7) Order 2023, there is a 2-months (January 2024 and February 2024) exemption provided for disposal made on or after 1 January 2024 to 29 February 2024 in respect of disposal of shares in companies incorporated in Malaysia not listed on the stock exchange.

Gains or profits from the disposal of a capital asset situated in Malaysia is exempted from tax. However, the exemption does not apply to disposal of unlisted shares of a company incorporated in Malaysia and disposal of shares under Section 15C of MITA.

Following to the above, the Malaysian Inland Revenue Board (“MIRB”) has issued the Guidelines: Capital Gains Tax on Unlisted Shares dated 1 March 2024 (CGT Guidelines) [*Available in Bahasa Malaysia only*].

Additionally, the Income Tax (Exemption) (No. 3) Order 2024 [P.U.(A) 75/2024] provides that gains or profits from the disposal of foreign capital assets received in Malaysia by companies, limited liability partnerships, trust bodies, and co-operative societies resident in Malaysia, which are compliance according to the economic substance requirements (“ESR”), are given exemption from CGT from 1 January 2024 to 31 December 2026, was gazetted on 4 March 2024.

According to the P.U.(A) 75/2024, the ESR condition is subject to compliance with the conditions imposed by the Minister as specified in the Guideline on Tax Treatment on Gains From the Disposal of Foreign Capital Assets Received from Outside Malaysia. The ESR for the CGT exemption includes the following:

- (a) employ adequate number of employees with necessary qualifications to carry out the specified economic activities in Malaysia; and
- (b) incur adequate amount of operating expenditure for carrying out the specified economic activities in Malaysia.

Any deduction in relation to the gains or profits exempted from CGT shall be disregarded for the purpose of ascertaining the chargeable income of the company, limited liability partnership, trust body, and co-operative society.

The CGT rate charged on gains or profits from the disposal of foreign capital asset, unlisted shares and Section 15C shares is provided under Part XXI, Schedule 1 of the MITA. The CGT rate is as follows:-

Type of capital asset	CGT Rate
Unlisted Shares and Section 15C Shares acquired before 1 January 2024	<ul style="list-style-type: none">• 10% on chargeable income from disposal of unlisted shares and Section 15C shares; or

	<ul style="list-style-type: none"> • 2% of gross disposal price
Unlisted Shares and Section 15C Shares acquired on or after 1 January 2024	10% on chargeable income from disposal of unlisted shares and Section 15C shares
Foreign capital asset	Prevailing rate for the company, limited liability partnership, trust body or co-operative society

The Fund is required to electronically file the tax returns within 60 days from the date of each disposal. The CGT will be paid within 60 days from the date of disposal. The Fund is required to keep the records of the disposal for 7 years.

2.3 Gains on Disposal of Investments

Currently, gains on disposal of investments by the Fund, where the investments represent shares in real property companies, may be subject to RPGT under the RPGT Act, 1976. A real property company is a controlled company which owns or acquires real properties or shares in real property companies with a market value of not less than 75% of its total tangible assets. A controlled company is a company which does not have more than 50 members and is controlled by not more than 5 persons.

However, based on the Finance (No.2) Act 2023, gains from disposal of real property company shares which are held by a company, limited liability partnership, trust body or co-operative society will be subject to CGT under MITA effective 1 January 2024. Disposal of other real properties will still be subject to RPGT Act, 1976.

2.4 Service Tax

The issuance of units by the Fund to investors will not be subject to Service Tax. Any distributions made by the Fund to unitholders are also not subject to Service Tax. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007.

To the extent that the Fund invests in any financial services products (e.g. securities, derivatives, units in a fund or unit trust), the acquisition of these interests will also not be subject to Service Tax.

If the Fund acquires any imported taxable services from a service provider outside of Malaysia, these services would be subject to 6% Service Tax. However, effective from 1 March 2024, in accordance with the provisions of subsection 10(2) Service Tax Act 2018, the service tax for the above services would be subject to service tax at 8%. The Fund would be required to file an SST-02A return on an ad hoc basis and report and pay this amount of tax to the Royal Malaysian Customs Department.

3. Taxation of Unit Holders

3.1 Taxable Distribution

Unit Holders will be taxed on an amount equivalent to their share of the total taxable income of the Fund to the extent such income is distributed to them. Unit Holders are also liable to pay income tax on the taxable income distributions paid by the Fund. Taxable income distributions carry a tax credit in respect of the tax chargeable on that part of the Fund. Unit Holders will be subject to tax on an amount equal to the net taxable income distribution plus attributable underlying tax paid by the Fund. No withholding tax will be imposed on the income distribution of the Fund.

Non-individual Unit Holders will be chargeable to tax on the income distributed to the Unit Holder from the interest income of a RMMF exempted under Paragraph 35A of Schedule 6 of the MITA with effect from 1 January 2022 as follows:-

Types of Unit Holders	Malaysian Tax Rates for Year of Assessment 2023 and 2024
<p>Non-individual residents:</p> <ul style="list-style-type: none"> ▪ Withholding tax rate ▪ Withholding tax mechanism ▪ Due date of payment 	<ul style="list-style-type: none"> ▪ 24% ▪ Income distribution carries a tax credit, which can be utilised to set off against the tax payable by the Unit Holders ▪ The withholding tax is to be remitted to the Director General of Malaysian Inland Revenue within one month of the distribution of interest income
<p>Non-individual non-residents:</p> <ul style="list-style-type: none"> ▪ Withholding tax rate ▪ Withholding tax mechanism ▪ Due date of payment 	<ul style="list-style-type: none"> ▪ 24% ▪ Withholding tax deducted will be regarded as a final tax ▪ The withholding tax is to be remitted to the Director General of Malaysian Inland Revenue within one month of the distribution of interest income

As the Fund is not a RMMF, the above withholding tax on distribution of interest income that is exempted under Paragraph 35A of Schedule 6 of the MITA will not be applicable to the non-individual Unit Holders of the Fund.

3.3 Tax Exempt Distribution

Tax exempt distributions made out of exempt income earned by the Fund will not be subject to Malaysian tax in the hands of Unit Holders, whether individual or corporate, resident or non-resident. All Unit Holders do not pay tax on that portion of their income distribution from the Fund's distribution equalisation account.

3.4 Distribution Voucher

To help complete a Unit Holder's tax returns, the Manager will send to each Unit Holder a distribution voucher as and when distributions are made. This sets out the various components of the income distributed and the amount of attributable income tax already paid by the Fund.

3.5 Sale, Transfer or Redemption of Units

Currently, any gains realised by a Unit Holder on the sale, transfer or redemption of his units are generally tax-free capital gains unless the Unit Holder is an insurance company, a financial institution or a person trading or dealing in securities. Generally, the gains realised by these categories of Unit Holders constitute business income on which tax is chargeable. Unit Holders should consult their respective tax advisors based on their own tax profiles to determine whether the gain from sale, transfer or redemption of units would qualify as capital gains or trading gains.

3.6 Reinvestment of Distribution

Unit Holders who receive their income distribution by way of investment in the form of the purchase of new units will be deemed to have received their income distribution and reinvested that amount in the Fund.

3.7 Unit Splits

Unit splits issued by the Fund are not taxable in the hands of the Unit Holders.

3.8 Service Tax

Pursuant to the Lampiran A of the First Schedule of the Service Tax Regulations 2018 ("First Schedule"), only taxable services listed in the First Schedule are subject to service tax. Investment income or gains received by the Unit Holder are not prescribed taxable services and hence, not subject to Service Tax.

Currently, the legal fees, consultant fees and management fees may be subject to service tax at 6% if the service providers are registered for Services Tax. Effective from 1 March 2024, in accordance with the provisions of subsection 10(2) Service Tax Act 2018, the aforementioned services would be subject to service tax at 8%.

We hereby confirm that the statements made in this tax adviser letter correctly reflect our understanding and the interpretation of the current Malaysian tax legislations and the related interpretation and practice thereof, all of which may subject to change. Our comments above are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation. The comments do not represent specific tax advice to any investors and we recommend that investors obtain independent advice on the tax issues associate with their investments in the Fund.

Yours faithfully
