Securities Lending / Repurchase Transactions	The Fund has not undertaken any securities lending or repurchase transactions (collectively referred to as "securities financing transactions").																																																												
Cross Trade	There were no cross trades undertaken during the financial period under review.																																																												
Distribution/ Unit splits	There is no income distribution and unit split declared for the financial period under review.																																																												

State of Affairs	There has been neither significant change to the state of affairs of the Fund nor any circumstances that materially affect any interests of the members during the financial period under review.
Rebates and Soft Commission	<p>During the period, the private retirement scheme provider received soft commissions by virtue of transactions conducted for the Fund, in the form of research services, systems and services relating to performance measurement of portfolios and subscription fees for fund's benchmark indices. All of these assist in the investment decision making process which are of demonstrable benefit to members of the Fund.</p> <p>The provider has soft commission arrangement with a total of 11 brokers, who execute trades for the Fund and other funds or investments managed by the provider. The soft commission received would be in the form of research services, systems and services relating to performance measurement of portfolios and/or subscription fees for fund's benchmark indices. All of these assist in the investment decision making process which are of demonstrable benefit to members of the Fund and other funds or investments managed by the provider.</p> <p>Soft commissions received were for the benefit of the Fund and there was no churning of trades.</p>
Market Review	<p>Asia Pacific equities market started the period under review on a negative note, dragged by the rapid rise in United States (US) treasury yields with market participants attributing the rise to several factors, including concern that the Federal Reserve (Fed) will keep interest rates higher for longer. Fears over growing geopolitical tension and underwhelming corporate quarterly earnings triggered further selloffs.</p> <p>Equities market performance subsequently staged a strong recovery in November fueled by a plunge in bond yields that accelerated as signs that policymakers have managed to tame inflation without breaking the economy. The bet was the Fed was done in hiking rates and will start cutting by mid-2024. South Korea KOSPI market rallied the most due to implementation of the full ban on short selling until June 2024, whereas Hong Kong equities declined for the month amid disappointing 4Q guidance by major internet/consumer names citing greater competition and low confidence in macro recovery. The ASEAN equities also rebounded but lagged behind the broader Asia Pacific region.</p> <p>The positive sentiment continued until the end of 2023, with the exception for China and Hong Kong market which had weaker than expected economic recovery. The unexpected release of draft regulation regarding online gaming also shattered investors' confidence.</p> <p>Going into the new year, investors approach the market cautiously as investors began tempering down expectations of rate cuts in March. China equities continued to decline in the absence of clear signs of China's property, capex and inventory cycles bottoming out coupled with anti-corruption moving further in the financial sector and news flows on more US restrictions on China biotech and tech. The rest of the Asian markets like Korea, Taiwan and some ASEAN markets also corrected in January as investor sentiment deteriorated on the back of Fed pushing back hopes of imminent rate cuts.</p> <p>Asia Pacific equities rebounded in February, with performance was led by a rebound in China/Hong Kong equities on the back of supportive domestic policy measures and better than expected activity data. KOSPI also rose amid heightened investor sentiment surrounding the South Korean government's corporate value-up program while Taiwan market continued to rise amid ongoing global artificial intelligence (AI) optimism which helped to drive further upside in</p>

	technology sector.
Market Outlook	<p>We are cautiously optimistic on the Asia Pacific equities. China has seen some green shoots emerging in its economy recovery with the industrial production and retail sales coming in ahead of expectations in YTD 2024, though the property sector remains weak. The markets of South Korea and Taiwan will continue to benefit from a rally in semiconductor chip stocks, helped by AI-driven demand. In addition, the Fed's expected rate cuts in 2H2024 generally bodes well for Asia Pacific equities.</p> <p>Equity valuation remains reasonable with the region's price/earnings ratio below the long term average. Among the key investment themes in focus in the region will be global supply chain relocation, energy transition and further tourism recovery. The Fund will adopt a balanced approach between value and growth as well as focus on geographies and sectors which are expected to experience growth/resilience.</p>

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 SEPTEMBER 2023 TO 29 FEBRUARY 2024

1. GENERAL INFORMATION

AmPRS – Islamic Equity Fund (the “Fund”) was established pursuant to a Deed dated 4 December 2012 as amended by Deeds supplemental thereto (the “Deeds”), between AmFunds Management Berhad as the PRS Provider (the “Provider”), Deutsche Trustees Malaysia Berhad as the Trustee and all members.

The Fund aims to provide long term capital growth by investing primarily in Shariah-compliant equities and/or equity-related securities. As provided in the Deeds, the financial year shall end on 31 August and the units in the Fund were first offered for sale on 25 November 2013.

The financial statements were authorised for issue by the Provider on 18 April 2024.

2. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements of the Fund have been prepared on a historical cost basis, except as otherwise stated in the accounting policies and comply with Malaysian Financial Reporting Standards 134: *Interim Financial Reporting* (“MFRS 134”) as issued by the Malaysian Accounting Standards Board (“MASB”).

Standards effective during the financial period

The adoption of the following MFRS which became effective during the financial period did not have any material financial impact to the financial statements.

Description	Effective for financial periods beginning on or after
MFRS 17 <i>Insurance Contracts and Amendments to MFRS 17*</i>	1 January 2023
Initial Application of MFRS 17 and MFRS 9 - <i>Comparative Information</i> (Amendments to MFRS 17 <i>Insurance Contracts</i>)*	1 January 2023

* These MFRS and Amendments to MFRSs are not relevant to the Fund.

3. SUMMARY OF ACCOUNTING POLICIES

3.1 Income recognition

Income is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the income can be reliably measured. Income is measured at the fair value of consideration received or receivable.

(i) Dividend/Distribution income

Dividend/Distribution income is recognised when the Fund's right to receive payment is established.

(ii) Profit income

Profit income on Islamic short-term deposits are recognised on an accrual basis using the effective profit method.

(iii) Gain or loss on disposal of Shariah-compliant investments

On disposal of Shariah-compliant investments, the net realised gain or loss on disposal is measured as the difference between the net disposal proceeds and the carrying amount of the Shariah-compliant investments. The net realised gain or loss is recognised in profit or loss.

AmPRS – Islamic Equity Fund

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD FROM 1 SEPTEMBER 2023 TO 29 FEBRUARY 2024

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.2 Income tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

3.3 Functional and presentation currency

Functional currency is the currency of the primary economic environment in which the Fund operates that most faithfully represents the economic effects of the underlying transactions. The functional currency of the Fund is Ringgit Malaysia (“RM”) which reflects the currency in which the Fund competes for funds, issues and redeems units. The Fund has also adopted RM as its presentation currency.

3.4 Foreign currency transactions

Transactions in currencies other than the Fund’s functional currency (foreign currencies) are recorded in the functional currency using exchange rates prevailing at the transaction dates. At each reporting date, foreign currency monetary items are translated into RM at exchange rates ruling at the reporting date. All exchange gains or losses are recognised in profit or loss.

3.5 Statement of cash flows

The Fund adopts the direct method in the preparation of the statement of cash flows.

Cash and cash equivalents are short-term, highly liquid Shariah-compliant investments that are readily convertible to cash with insignificant risk of changes in value.

3.6 Members’ contribution

The members’ contribution of the Fund are classified as liabilities under the requirements of MFRS 132 *Financial Instruments: Presentation* (“MFRS 132”).

Under MFRS 132, a unit trust fund with one common class of members is classified as equity as it meets the requirement of having identical features. In a multi-unit class fund, if any one class (or a group of classes) can be differentiated in terms of their features, then all the classes will be classified as liability.

The Fund issues cancellable units in two classes. Details are disclosed in Note 11.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL PERIOD FROM 1 SEPTEMBER 2023 TO 29 FEBRUARY 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.7 Distribution

Distribution is at the discretion of the Provider. A distribution to the Fund's members is accounted for as a deduction from realised income and recognised in the statement of comprehensive income, as the members' contribution are classified as financial liability as per Note 3.6. Realised income is the income earned from dividend/distribution income, profit income and net gain on disposal of Shariah-compliant investments after deducting expenses and taxation. A proposed distribution is recognised as a liability in the period in which it is approved. Distribution is either reinvested or paid in cash to the members on the distribution payment date. Reinvestment of units is based on the NAV per unit on the distribution payment date, which is also the time of creation.

3.8 Financial assets – initial recognition and measurement

(i) Initial recognition

Financial assets and financial liabilities are recognised when the Fund becomes a party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognised using trade date accounting or settlement date accounting. The method used is applied consistently for all purchases and sales of financial assets that belong to the same category of financial assets.

(ii) Initial measurement

All financial assets are recognised initially at fair value, in the case of financial assets not recorded at FVTPL, transaction costs that are attributable to the acquisition of the financial asset. All financial liabilities are recognised initially at fair value and, in the case of financial liabilities not recorded at FVTPL, net of directly attributable transaction costs.

(iii) "Day 1" profit or loss

At initial measurement, if the transaction price differs from the fair value, the Fund immediately recognises the difference between the transaction price and fair value (a "Day 1" profit or loss) in profit or loss provided that fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. Level 1 input) or based on a valuation technique that uses only data from observable markets. In all other cases, the difference between the transaction price and model value is recognised in profit or loss on a systematic and rational basis that reflects the nature of the instrument over its tenure.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL PERIOD FROM 1 SEPTEMBER 2023 TO 29 FEBRUARY 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.9 Financial assets under MFRS 9

Classification and measurement

The classification of financial assets depends on the Fund's business model of managing the financial assets in order to generate cash flows ("business model test") and the contractual cash flow characteristics of the financial instruments ("SPPP test"). The business model test determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both and the assessment is performed on a portfolio basis. The SPPP test determines whether the contractual cash flows are solely for payments of principal and profit and the assessment is performed on a financial instrument basis.

The Fund may classify its financial assets under the following categories:

Financial assets at amortised cost

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and profit on the principal amount outstanding. Financial assets include in this category are Shariah-compliant deposits with licensed financial institutions, cash at banks, amount due from Target Fund Manager, amount due from Provider, amount due from brokers/financial institutions, dividend/distribution receivables and other receivables.

Financial assets at FVOCI

A financial asset is measured at fair value through other comprehensive income ("FVOCI") if its business model is both to hold the asset to collect contractual cash flows and to sell the financial asset. In addition, the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and profit on the outstanding principal.

These Shariah-compliant investments are initially recorded at fair value and transaction costs are expensed in the profit or loss. Subsequent to initial recognition, these Shariah-compliant investments are remeasured at fair value. All fair value adjustments are initially recognised through OCI. Debt instruments at FVOCI are subject to impairment assessment.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL PERIOD FROM 1 SEPTEMBER 2023 TO 29 FEBRUARY 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.9 Financial assets under MFRS 9 (cont'd.)

Classification and measurement (cont'd.)

The Fund may classify its financial assets under the following categories: (cont'd.)

Financial assets at FVTPL

Any financial assets that are not measured at amortised cost or FVOCI are measured at FVTPL. Subsequent to initial recognition, financial assets at FVTPL are measured at fair value. Changes in the fair value of those financial instruments are recorded in “Net gain or loss on financial assets at FVTPL”. Dividend/Distribution income and profit earned elements of such instruments are recorded separately in “Dividend/Distribution income” and “Profit income” respectively. Exchange differences on financial assets at FVTPL are not recognised separately in profit or loss but are included in net gain or net loss on changes in fair value of financial assets at FVTPL.

Instruments that qualify for amortised cost or FVOCI may be irrevocably designated as FVTPL, if doing so eliminates or significantly reduces a measurement or recognition inconsistency. Equity instruments are normally measured at FVTPL, nevertheless, the Fund is allowed to irrevocably designate equity instruments that are not held for trading as FVOCI, with no subsequent reclassification of gains or losses to profit or loss.

The Fund subsequently measures its Shariah-compliant investments in equity investments and collective investment schemes (“CIS”) at FVTPL. Dividends/Distributions earned whilst holding the Shariah-compliant investments are recognised in profit or loss when the right to receive the payment has been established. Gains and losses on the Shariah-compliant investments, realised and unrealised, are included in profit or loss.

3.10 Financial liabilities – classification and subsequent measurement

Financial liabilities issued by the Fund are classified as financial liabilities at amortised cost, where the substance of the contractual arrangement results in the Fund having an obligation either to deliver cash or another financial asset to the members. After initial measurement, financial liabilities are subsequently measured at amortised cost using the effective profit method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective profit rate.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL PERIOD FROM 1 SEPTEMBER 2023 TO 29 FEBRUARY 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.11 Derecognition of financial instruments

(i) Derecognition of financial asset

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired, or
- the Fund has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a “pass-through” arrangement; and either:
 - the Fund has transferred substantially all the risks and rewards of the asset, or
 - the Fund has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

For Shariah-compliant investments classified as FVOCI - debt instruments, the cumulative fair value change recognised in OCI is recycled to profit or loss.

(ii) Derecognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. Gains and losses are recognised in profit or loss when the liabilities are recognised, and through the amortisation process.

3.12 Financial instruments – expected credit losses (“ECL”)

The Fund assesses the ECL associated with its financial assets at amortised cost using simplified approach. Therefore, the Fund does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The ECL in respect of financial assets at amortised cost, if any, is recognised in profit or loss.

Financial assets together with the associated allowance are written off when it has exhausted all practical recovery efforts and there is no realistic prospect of future recovery. The Fund may also write-off financial assets that are still subject to enforcement activity when there is no reasonable expectation of full recovery. If a write-off is later recovered, the recovery is credited to profit or loss.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL PERIOD FROM 1 SEPTEMBER 2023 TO 29 FEBRUARY 2024**

3. SUMMARY OF ACCOUNTING POLICIES (CONT'D.)

3.13 Determination of fair value

For Shariah-compliant investments in local quoted securities, fair value is determined based on the closing price quoted on Bursa Malaysia Berhad. For Shariah-compliant investments in foreign listed securities, which are quoted in the respective stock exchanges, fair value will be determined based on the published market price quoted by the respective stock exchanges at the end of each business day. For Shariah-compliant investments in CIS, fair value is determined based on the closing NAV per unit of the CIS. Purchased cost is the quoted price that the Fund paid when buying its Shariah-compliant investments. The difference between purchased cost and fair value is treated as unrealised gain or loss and is recognised in profit or loss. Unrealised gains or losses recognised in profit or loss are not distributable in nature.

3.14 Classification of realised and unrealised gains and losses

Unrealised gains and losses comprise changes in the fair value of financial instruments for the period and from reversal of prior period's unrealised gains and losses for financial instruments which were realised (i.e. sold, redeemed or matured) during the reporting period.

Realised gains and losses on disposals of financial instruments classified at FVTPL are calculated using the weighted average method. They represent the difference between an instrument's initial carrying amount and disposal amount.

3.15 Significant accounting estimates and judgments

The preparation of the Fund's financial statements requires the Provider to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability in the future.

The Fund classifies its Shariah-compliant investments as financial assets at FVTPL as the Fund may sell its Shariah-compliant investments in the short-term for profit-taking or to meet members' cancellation of units.

No major judgments have been made by the Provider in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period.

* A financial institution related to the Provider.

The Provider is of the opinion that the above transactions have been entered into normal course of business and have been established under terms that are no less favourable than those arranged with independent third parties.

The above transactions are in respect of Shariah-compliant listed equities securities, CIS and deposits. Transactions in unquoted Shariah-compliant CIS and deposits do not involve any commission or brokerage fee.

18. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund is exposed to a variety of risks that include market risk, credit risk, liquidity risk, single issuer risk, regulatory risk, country risk, management risk, non-compliance risk and Shariah non-compliance risk.

Risk management is carried out by closely monitoring, measuring and mitigating the above said risks, careful selection of Shariah-compliant investments coupled with stringent compliance to Shariah-compliant investments restrictions as stipulated by the Capital Market and Services Act 2007, Securities Commission Malaysia's Guidelines on Private Retirement Schemes, Securities Commission Malaysia's Guidelines on Islamic Capital Market Products and Services, and the Deeds as the backbone of risk management of the Fund.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL PERIOD FROM 1 SEPTEMBER 2023 TO 29 FEBRUARY 2024**

18. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(a) Market risk

The Fund's principal exposure to market risk arises primarily due to changes in the market environment, global economic and geo-political developments.

The Fund's market risk is affected primarily by the following risks:

(i) Price risk

Price risk refers to the uncertainty of an investment's future prices. In the event of adverse price movements, the Fund might endure potential loss on its Shariah-compliant investments. In managing price risk, the Provider actively monitors the performance and risk profile of the investment portfolio.

(ii) Profit rate risk

Profit rate risk will affect the value of the Fund's Shariah-compliant investments, given the profit rate movements, which are influenced by regional and local economic developments as well as political developments.

Domestic profit rates on deposits and placements with licensed financial institutions are determined based on prevailing market rates.

Although Islamic Fund does not deal with interest-bearing accounts and products, the fluctuation of profit rate may affect the performance of an Islamic Fund.

(iii) Currency risk

Currency risk is associated with the Fund's assets and liabilities that are denominated in currencies other than the Fund's functional currency. Currency risk refers to the potential loss the Fund might face due to unfavorable fluctuations of currencies other than the Fund's functional currency against the Fund's functional currency.

(b) Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Fund by failing to discharge an obligation. Credit risk applies to Islamic short-term deposits and dividend/distribution receivables. The issuer of such instruments may not be able to fulfill the required profit payments or repay the principal invested or amount owing. These risks may cause the Fund's Shariah-compliant investments to fluctuate in value.

18. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONT'D.)

(b) Credit risk (cont'd.)

For Shariah-compliant deposit with a licensed financial institution, the Fund makes placements with a licensed financial institution with sound rating of P1/MARC-1 and above. Cash at banks are held for liquidity purposes and are not exposed to significant credit risk.

(c) Liquidity risk

Liquidity risk is defined as the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Exposure to liquidity risk arises because of the possibility that the Fund could be required to pay its liabilities or redeem its units earlier than expected. The Fund maintains sufficient level of liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellations of units by members. Liquid assets comprise of deposit with a licensed financial institution and other instruments, which are capable of being converted into cash within 5 to 7 days. The Fund's policy is to always maintain a prudent level of liquid assets so as to reduce liquidity risk.

The Fund's financial liabilities have contractual maturities of not more than six months.

(d) Single issuer risk

Internal policy restricts the Fund from investing in securities issued by any issuer of not more than a certain percentage of its NAV. Under such restriction, the risk exposure to the securities of any single issuer is diversified and managed based on internal/external ratings.

(e) Regulatory risk

Any changes in national policies and regulations may have effects on the capital market and the NAV of the Fund.

(f) Country risk

The risk of price fluctuation in foreign securities may arise due to political, financial and economic events in foreign countries. If this occurs, there is a possibility that the NAV of the Fund may be adversely affected.

(g) Management risk

Poor management of the Fund may cause considerable losses to the Fund that in turn may affect the NAV of the Fund.

(h) Non-compliance risk

This is the risk of the Provider or the Trustee not complying with the respective internal policies, the Deed and its Supplemental Deeds, securities laws or guidelines issued by the regulators relevant to each party, which may adversely affect the performance of the Fund.

(i) Shariah non-compliance risk

This is the risk of the Fund not conforming to Shariah Investment Guidelines. The Shariah Adviser for the Fund would be responsible for ensuring that the Fund is managed and administered in accordance with Shariah Investment Guidelines. Note that as the Fund can only invest in Shariah-compliant instruments, non-compliance may adversely affect the NAV of the Fund when the rectification of non-compliance results in losses.
