### What is the Fund about?

AmSingle Bond Series 1 is a wholesale bond fund issued by AmFunds Management Berhad (the “Manager”) which seeks to provide regular income over the medium to long-term by investing primarily into a single credit bond.

### Who is the Fund suitable for?

The Fund is suitable for Sophisticated Investors:

- seeking an investment that seeks to provide income;
- have a medium to long-term investment horizon; and
- seeking potentially higher returns than the AmBank (M) Berhad 12-month conventional fixed deposit rate (fixed as at Commencement Date).

*Note: Medium to long-term refers to a period of more than one (1) year.*

### What am I investing in?

Fund Category	Bond (Wholesale).
Fund Type	Income.
Investment Objective	The Fund seeks to provide regular income over the medium to long-term.  <i>Note: Any material change to the investment objective of the Fund would require unit holders’ approval.</i>
Investment Strategy	<p>The Fund seeks to achieve its investment objective by investing primarily into a single credit bond. The remaining net asset value (“NAV”) of the Fund will be in liquid assets such as cash, deposits and money market instruments either directly or via collective investment schemes.</p> <p>The Manager will undertake a top-down and bottom-up investment approach to identify investment opportunities. Macroeconomic trends and market analysis are the important considerations in deriving the top-down perspectives on interest rate outlook, fixed income markets and currency movements. For its bottom-up approach, the Manager will conduct analysis on the issuers to assess its ability to service its debt obligations.</p> <p>The fundamental investment process will be driven by two (2) main factors:</p> <ul style="list-style-type: none"> <li>• Credit quality of the bond; and</li> <li>• Yield of the bond.</li> </ul> <p>The Manager will aim to strike an overall between these two (2) factors to deliver the best risk-adjusted return to unit holders.</p> <p>The Fund’s investment in the bond would consist of a corporate bond (including hybrid securities such as additional tier-1 (AT1) securities and contingent convertible capital instruments known as CoCo bonds), government bond and quasi government bond. The selection of the bond will not be constrained by credit ratings of the issuance. However, the selection will depend largely on its quality, where the issuer displays strong ability to meet its financial obligations, healthy cash-flow, the collateral type, value, claims, priority as well as offer highest safety for timely payment of interest and principal.</p> <p>The Fund may utilise derivatives (such as forward contracts) on a rolling basis solely for the purpose of hedging the Fund’s exposure to foreign currency, if any. The Fund may invest in countries where the regulatory authority is an ordinary or associate member of International Organization of Securities Commissions.</p> <p><i>Note: Please refer to the Information Memorandum of the Fund for additional information in relation to the bond.</i></p>
Asset Allocation	<ul style="list-style-type: none"> <li>• A minimum of 60% of NAV to be invested in bond; and</li> <li>• A maximum of 40% of NAV to be invested in liquid assets such as cash, deposits and money market instruments either directly or via collective investment schemes.</li> </ul> <p><i>Note: The Manager may also deviate from the above asset allocation for the first two (2) months from the Fund’s Commencement Date. The Fund may reduce the exposure in the bond and increase its investments in liquid assets such as cash and other permitted investments in adverse market, economic, political or any other condition which include times of market weakness, high redemption and as part of the temporary defensive strategy as well</i></p>

	<p>as for the purpose of winding up the portfolio to accommodate early termination of the Fund. During this period, the Fund's investment may differ from the stipulated asset allocation.</p> <p>The Fund may also deviate from the above asset allocation if the issuer of the bond calls the bond, the bond matures or when the Manager disposes off all its holdings of the bonds and is required to replace the bond with another. In such an event, the Fund will not deviate more than ninety (90) days from the above stipulated asset allocation.</p>
Base Currency of the Fund	US Dollar (USD).
Performance Benchmark	<p>AmBank (M) Berhad 12-month conventional fixed deposit rate (fixed as at Commencement Date).</p> <p>You may visit <a href="http://www.aminvest.com">www.aminvest.com</a> or call us at (03) 2032 2888 to find out about the AmBank (M) Berhad 12-month conventional fixed deposit rate as at Commencement Date.</p> <p>The risk profile of the Fund's investments is higher than the risk profile of the AmBank (M) Berhad 12-month conventional fixed deposit rate and consequently, the Fund is expected to outperform the AmBank (M) Berhad 12-month conventional fixed deposit rate. There is no guarantee that the Fund's performance will always outperform the benchmark.</p>
Launch Date	19 September 2022
Offer Period	<p>A period of up to five (5) Business Days commencing from the date units of the Fund are being offered for sale.</p> <p>Note: The Manager reserves the right to determine a shorter offer period and notify the Trustee. The decision for a shorter offer period is based on the sole discretion of the Manager.</p>
Offer Price	<p><b>RM Class:</b> RM1.0000</p> <p><b>RM-Hedged Class:</b> RM1.0000</p> <p><b>SGD Class:</b> SGD1.0000</p> <p><b>USD Class:</b> USD1.0000</p>
Commencement Date	The date on which the investments of the Fund may first be made and is the date which falls on the first (1 <sup>st</sup> ) Business Day after the expiry of the Offer Period.
Early Termination Feature of the Fund	<p>The Fund has an Early Termination feature. The Fund's Early Termination triggers when the Fund holds 100% in money market instruments, deposits and cash. This occurs when the issuer of the bond calls the bond, the bond matures or when the Manager disposes off all its holdings of the bond in view of the continued deterioration in the credit fundamentals of the bond which would affect the performance of the Fund and hence, leading to the Manager exercising its discretion to act in the best interests of the unit holders. Once any of the above criteria is met and in accordance to the requirements of the deed for the Fund, the Manager has the option to exercise the right to trigger an Early Termination without requiring a unit holders' meeting by issuing a notice to unit holders on the next Business Day of the day when above criteria is met.</p> <p>In the event of an Early Termination, the Fund will be terminated, without having to seek the unit holder's prior approval, on the Early Termination Date, which will fall on a Business Day as decided by the Manager.</p>
Income Distribution Policy	<p>Depending on the level of income the Fund generates and at the discretion of the Manager, the Fund may provide distribution on an annual basis.</p> <p>Note: Income distribution (if any) will be in the form of cash.</p>

## Who am I investing with?

Manager	: AmFunds Management Berhad ("AFM")
Trustee	: Deutsche Trustees Malaysia Berhad
Trustee's Delegate (Custodian)	: Deutsche Bank (Malaysia) Berhad
Taxation Adviser	: Deloitte Tax Services Sdn Bhd
Auditor	: Ernst & Young PLT

All transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arm's length transaction between independent parties. The Fund may have dealings with parties related to the Manager. The related parties defined are AmIslamic Funds Management Sdn Bhd, AmInvestment Bank Berhad, AmInvestment Group Berhad, AmBank (M) Berhad and AmBank Islamic Berhad.

The Manager may conduct cross trades between funds and private mandates it currently manages provided that all criteria imposed by the regulators are met. Notwithstanding, cross trades between the personal account of an employee of the Manager and the Fund's account and between the Manager's proprietary trading accounts and the Fund's account are strictly prohibited. The execution of cross trade will be reported to the investment committee and disclosed in the Fund's report accordingly.

## What are the possible outcomes of my investment?

Best Case	Capital appreciation and income distribution.
Mid Case	No significant change in investment i.e. no capital appreciation and no income distribution.
Worst Case	Capital loss and no income distribution.

## What are the key risks associated with the Fund?

### General risks associated with investing in a wholesale fund

Market Risk	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's net asset value.
Inflation Risk	This is the risk that Sophisticated Investors' investment in the fund may not grow or generate income at a rate that keeps pace with inflation.
Manager's Risk	This risk refers to the day-to-day management of the fund by the manager which will impact the performance of the fund.
Non-Compliance Risk	This is the risk of the manager or the trustee not complying with their respective internal policies, the deed and its supplemental deed, securities law or guidelines issued by the regulators relevant to each party, which may adversely affect the performance of the fund.
Loan Financing Risk	This risk occurs when investors take a loan / financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the repayments.
Country Risk	Investments of the fund in any country may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the fund invests in.

### Specific risks associated with the Fund

Interest Rate Risk	Interest rate risk refers to the impact of interest rate changes on the valuation of fixed income instruments. When interest rates rise, fixed income instruments prices generally decline and this may lower the market value of the Fund's investment in fixed income instruments. The reverse may apply when interest rates fall.
Income Distribution Risk	The distribution of income is not guaranteed.
Liquidity Risk	Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.
Counterparty Credit Risk	Counterparty credit risk is the risk arising from the possibility that the counterparty may default or not able to fulfill a trade settlement prior or on the settlement date of the trade. This could adversely affect the value of the Fund.
Credit and Default Risk	Credit risk relates to the creditworthiness of the issuers of the fixed income instruments or money market instruments and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the fixed income instruments or money market instruments. In the case of rated fixed income instruments, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of a fixed income instruments either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the fixed income instruments. This could adversely affect the value of the Fund.
Currency Risk	As the investments of the Fund may be denominated in currencies other than the base currency, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments.
Early Termination Risk	This is the risk of investor's investment in the Fund being "terminated" earlier than expected, in the event it was launched and subsequently achieving early termination requirement. In such cases, investors may have to reinvest the monies returned to them into other investment vehicles or other investment instruments. These other investments in turn may not be able to match the rate of return that would have been provided by the Fund had the Fund not been terminated early.
Concentration Risk	The Fund invests in a single credit bond. Any adverse effect on the bond will affect the Fund as well. The performance of the Fund is also dependent on the performance of the bond. This risk, however, may be mitigated when the Manager is allowed to take temporary defensive position in response to any adverse market conditions, or when the Manager is able to replace the single credit bond with another.

**Note: The abovementioned risks which Sophisticated Investors should consider before investing into the Fund should not be considered to be an exhaustive list. Sophisticated Investors should be aware that investments in the Fund may be exposed to other unforeseeable risks from time to time. Sophisticated Investors are advised to consult their professional adviser. Please refer to the Information Memorandum under "Risk Factors" for further details on risks.**

**Please note that if you invest in units through a distributor via a nominee system of ownership, you will not be deemed a unit holder under the deed of the Fund.**

## What are the fees and charges involved?

There are fees and charges involved and you are advised to consider them before investing in the Fund.

**Note: Unless stated otherwise, all fees, charges and/or expenses disclosed in the Product Highlights Sheet are exclusive by way of example and not limitation; goods and services tax, value added tax, consumption tax, levies, duties and other taxes as may be imposed by the Government of Malaysia from time to time (collectively known as "Taxes"). If these fees, charges and/or expenses are subject to any Taxes, such Taxes shall be borne and payable by the unit holders and/or the Fund (as the case may be) at the prevailing rate, including any increase or decrease to the rate, in addition to the fees, charges and/or expenses stated herein.**

**Sophisticated Investors are advised to consider the fees and charges involved before investing in the Fund. Unit prices and distributions, if any, may go down as well as up.**

**How will I be notified of any increase in fees and charges?**

- A written communication will be sent to unit holders to notify of the higher rate and its effective date; and
- A supplementary or replacement information memorandum will be issued.

**How often are valuations available?**

We publish updated information on our website [www.aminvest.com](http://www.aminvest.com); and the NAV per unit of the Fund is sent to the Federation of Investment Managers Malaysia ("FIMM") in order for it to be published in major newspapers on a daily basis.
